Winning Ways Virginia Roach, Jane Ascroft, Andrew Stamp, 1995

Including Everyone Judith Anne Jellison, 2015 Many practical books for music educators who work with special needs students focus on students disabilities rather than on the inclusive classroom more generally In *Including Everyone Creating Music Classrooms Where All Children Learn* veteran teacher and pedagogue Judith Jellison offers a new approach that identifies broader principles of inclusive music instruction writ large As she demonstrates in this aptly titled book the perceived impediments to successfully including the wide diversity of children in schools in meaningful

music instruction often stem not from insurmountable obstacles but from a lack of imagination How do teachers and parents create diverse musical communities in which all children develop skills deepen understanding and cultivate independence in a culture of accomplishment and joy Including Everyone equips music teachers with five principles of effective instruction for mixed special needs traditional settings that are applicable in both classroom and rehearsal rooms alike These five guidelines lay out Judith Jellison's argument for a new way to teach music that shifts attention away from thinking of children in terms of symptoms The effective teacher argues Jellison will strive to offer a curriculum that will not only allow the child with a disability to be more successful but will also apply to and improve instruction for typically developing students In this compelling new book Judith Jellison illustrates what it takes to imagine create and realize possibilities for all children in ways that inspire parents teachers and the children themselves to take part in collaborative music making Her book helps readers recognize how this most central component of human culture is one that allows everyone to participate learn and grow Jellison is a leader in her field and the wealth of knowledge she makes available in this book is extensive and valuable It should aid her peers and inspire a new generation of student teachers *Widening the Circle* Mara

Sapon-Shevin, 2007-03-15 *Widening the Circle* is a passionate even radical argument for creating school and classroom environments where all kids including children labeled as disabled and special needs are welcome on equal terms In opposition to traditional models of special education where teachers decide when a child is deemed ready to compete in mainstream classes Mara Sapon Shevin articulates a vision of full inclusion as a practical and moral goal Inclusion she argues begins not with the assumption that students have to earn their way into the classroom with their behavior or skills it begins with the right of every child to be in the mainstream of education perhaps with modifications adaptations and support Full inclusion requires teachers to think about all aspects of their classrooms pedagogy curriculum and classroom climate Crucially Sapon Shevin takes on arguments against full inclusion in a section of straight talking answers to common questions She agrees with critics that the rhetoric of inclusion has been used to justify eliminating services and dumping students with significant educational needs unceremoniously back into the mainstream with little or no support If full inclusion is properly implemented however she argues it not only clearly benefits those traditionally excluded but enhances the educations and lives of those considered mainstream in myriad ways Through powerful storytelling and argument Sapon Shevin lays out the moral and educational case for not separating kids on the basis of difference **Proceedings of the**
