Sovereignty and Territorial Temptation Christopher R. Rossi, 2017-04-27 This powerful book stands on its head the most venerated tradition in international law and discusses the challenges of scarcity sovereignty and territorial temptation Newly emergent resources accessible through global climate change discovery or technological advancement highlight time tested problems of sovereignty and challenge liberal internationalism s promise of beneficial or shared solutions From the High Arctic to the hyper arid reaches of the Atacama Desert from the South China Sea to the history of the law of the sea from doctrinal and scholarly treatments to institutional forms of global governance the historically recurring problem of territorial temptation in the ageless age of scarcity calls into question the future of the global commons and illuminates the tendency among states to share resources but only when necessary

Global Challenges in the Arctic Region Elena Conde, Sara Iglesias Sánchez, 2016-08-05 Bringing together

interconnected discussions to make explicit the complexity of the Arctic region this book offers a legal discussion of the ongoing territorial disputes and challenges in order to frame their impact into the viability of different governance strategies that are available at the national regional and international level One of the intrinsic features of the region is the difficulty in the determination of boundaries responsibilities and interests Against this background sovereignty issues are intertwined with environmental and geopolitical issues that ultimately affect global strategic balances and international trade and at the same time influence national approaches to basic rights and organizational schemes regarding the protection of indigenous peoples and inhabitants of the region This perspective lays the ground for further discussion revolving around the main clusters of governance focusing on the Arctic Council and the European Union with the particular roles and interest of Arctic and non Arctic states and the impact on indigenous populations environment including the relevance of national regulatory schemes and the intertwinement with concerns related to energy or migration strategy concentrating in geopolitical realities and challenges analysed from different perspectives and focusing on different actors and covering security and climate change related challenges This collection provides an avenue for parallel and converging research of complex realities from different disciplines through the expertise of scholars from different latitudes
