

The background of the cover is a painting of a child with dark hair, wearing a light-colored long-sleeved shirt and pants, jumping over a dark wooden fence. The child's arms are outstretched, and they are in mid-air. The sky is dark blue and purple with white stars and soft, glowing clouds. The overall mood is dreamy and hopeful.

[Storytelling Strategies for Reaching and Teaching Children with Special Needs](#) Sherry Norfolk, Lyn Ford, 2017-11-21. This book supplies stories, essays, lesson plans, and specialized storytelling strategies to help teachers level the playing field for all learners and better serve children with special needs. More than 57 percent of the over 6 million American children with disabilities are in inclusive, i.e. general classrooms. Self-contained classrooms serve children whose disabilities are either more severe or disruptive. As much as 20 percent of the children in an inclusive classroom are identified as disabled, with the highest percentage of these having learning disabilities. While most classrooms have at least one child with a disability, teachers often have little or no training in educating and caring for these children. The need for resources that support educators working with children with disabilities or social/emotional difficulties is clear. This book fills this critical need, supplying school and public librarians, classroom and special area teachers, and storytelling/teaching artists with storytelling strategies for reaching and teaching children with special needs in inclusive classrooms, self-contained classrooms, and public and school libraries. These full-text stories, essays, and lesson plans from experienced storytelling/teaching artists provide educators with a wide range of adaptable storytelling and teaching strategies for specific disabilities and enable storytellers to discover new ways to perform their storytelling magic. The book also offers compelling real-life anecdotes that demonstrate the impact of these strategies in inclusive and self-contained classrooms, presents an introduction to the skills of storytelling, why they are useful, and how to use them, and includes suggested modifications for a wide range of disabilities, as well as detailed resource lists.
