Creation And Interpretation:

The Days of Creation Andrew J. Brown, 2019-05-21 The Days of Creation examines the history of Christian interpretation of the seven day framework of Genesis 1:1-3 in the Hebrew Bible Old Testament from the post apostolic era to the debates surrounding Essays and Reviews 1860 Included in the survey are patristic medieval Renaissance Reformation eighteenth century Enlightenment and finally early to mid nineteenth century interpretations of the days of creation The author shows that readings of Genesis 1:1-3 in the modern era have much deeper roots than is sometimes realized The day age scheme has roots in Augustine's figurative creation days the world week historical scheme Renaissance Platonism and Newtonian science while the literal alternative of the gap theory combines ancient literal interpretation with chaos concepts derived from Greco Roman myths and interpreted through a geological lens Early treatments of this text are poorly understood because of their very different philosophical and theological contexts Hasty appropriation of ancient precedents as support for modern interpretations often overlooks or oversimplifies this difference Changing ideas and exploration in the early Modern era undermined the dominance of this text so that by the time of Goodwin's essay in Essays and Reviews Genesis 1:1-3 was already well on the way to its present intellectual marginalization This study enables an insight into the mighty career of a biblical text of seminal importance and fills a significant niche in reception historical research **Since**

the Beginning Kyle R. Greenwood, 2018-09-04 Few passages in the Hebrew Bible have been subject to more scrutiny than Genesis 1 and 2 In this volume a diverse international team of experts guides readers through interpretations of the Genesis creation stories throughout history inviting them to consider perspectives from the earliest times to the present The book offers an accurate description of how these chapters have been read through the centuries explaining each interpretive approach in its own terms Each chapter includes sidebars and suggestions for further reading **The Story of Creation**

Calum M. Carmichael, 2019-06-07 Calum Carmichael asserts that biblical texts both in the Old and New Testaments which have been the subject of interpretation for centuries are themselves often the products of the ancient authors' interpretation of still other literary compositions Claiming that parts of the Bible constitute major and very early examples of exegesis Carmichael demonstrates that the author of the story of creation in Genesis 1 produced his work in reaction to troubling issues that arose in the story of the exodus The author of John's Gospel in turn recounted the life of Jesus in light of the story of creation Pointing out that much of modern literary criticism has roots in biblical hermeneutics Carmichael turns his attention to the richness and complexity of the ancient world's own modes of interpretation By doing so he is able to uncover the heretofore unrecognized influence of the exodus story on the creation story and of the creation story on John's Gospel Carmichael first shows how the author of the seven day scheme of creation in Genesis produced it in response to his reading of the exodus story which was centuries old in his time He then shows the extent to which the author of John's Gospel was influenced by first century cosmological speculation Philo's in particular In the first five chapters of his gospel the author

Sj Tobin, 2023-12-07 This monograph a revised form of a 1980 Harvard dissertation is a study of Philo s interpretation of the creation of man in Genesis 1 3 and specifically in 1 27 and 2 7 Tobin approaches this study with two particular questions 1 what were the exegetical traditions available to Philo and what were Philo s own developments and contributions and 2 what was the philosophical milieu of the period in Alexandria and how did this influence both the traditions and their use by Philo Very early in the book Tobin establishes the two basic criteria which he will use in determining which interpretations are Philo s own and which are those of his predecessors Pre Philonic interpretations are 1 those which Philo tells us directly are not his own and 2 those which clash with a position which spans the entire Philonic corpus and thus can be identified as Philo s own **Creation, New Creation and Biblical Interpretation** Matthew J. McIntosh, 2000 **The Origin of Humanity and Evolution** Andrew Ter Ern Loke, 2022-06-16 Addressing the intense debate in science and religion in light of evolutionary population genetics Andrew Ter Ern Loke argues that the theory of evolution as understood by mainstream scientists is compatible with Scripture Loke asserts that resolving this area of perceived conflict would greatly benefit both scientific and religious communities and contribute to the spiritual quest of humankind Whilst affirming that the Bible should be interpreted according to proper hermeneutical principles such as considering the literary genre literary context meaning of words grammatical relationship and the background and concerns of the ancient authors this book also assesses the scientific data according to proper mainstream scientific methodology Having accomplished these tasks it proposes a model which argues that all humans today have Adam as common ancestor even though this ancestor is not our sole ancestor

Practical Handbook for the Study of the Bible and of Bible Literature Michael Seisenberger, 1911 The Expository Times, 1890 *Interpreting Eden* Vern S. Poythress, 2019-03-14 No interpreter of the creation narratives can avoid interacting with this book Derek W H Thomas Christians have long discussed and debated the first three chapters of the Bible How we interpret this crucial section of Scripture has massive implications for how we understand the rest of God's Word and even history itself In this important volume biblical scholar Vern Poythress combines careful exegesis with theological acumen to illuminate the significance of Genesis 1-3 In doing so he demonstrates the sound interpretive principles that lead to true understanding of the biblical text while also exploring complex topics such as the nature of time the proper role of science interpretive literalism and more A Critical and Exegetical Commentary on the Epistles to the Ephesians and to the Colossians Thomas Kingsmill Abbott, 1902 **God and Mental Causation** Daniel Lim, 2015-06-15 This book lies at the intersection of philosophy of mind and philosophy of religion and operates on the assumption that dialogue between the two disciplines can be fruitful In particular it focuses on how debates in the philosophy of mind regarding the nature of mental causation relate to debates in the philosophy of religion regarding divine action creaturely causation and existence of God The book is divided into two parts The first deals with Jaegwon Kim's so-called Supervenience Argument SA against non-reductive physicalism One important observation is that the structural similarities between non-reductive physicalism and orthodox theism make it convenient to co-opt non-reductive physicalist solutions to the SA in defending the possibility of creaturely causation in the philosophy of religion The SA is used as a foil to discuss the relative merits of Malebranche's so-called Conservation is Continuous Creation Argument for Occasionalism CCCA Moreover the so-called compatibilist strategy Karen Bennett 2003 2009 for developing a non-reductive physicalist response to the Supervenience Argument is defended and developed This strategy is then deployed in the philosophy of religion to defend the possibility of creaturely causation against the CCCA Theologies in Conflict in 4 Ezra Karina Hogan, 2008 Recent scholarship on 4 Ezra has taken two divergent approaches the first reading the dialogues between Ezra and Uriel as a reflection of theological debates in the author's time and the second focusing on the psychological development of the protagonist Combining the two approaches this book offers a new interpretation of the dialogues as a literary representation of a debate between covenantal and eschatological wisdom two branches of Jewish wisdom that emerged in the late Second Temple period The inconclusive quality of the dialogues indicates the author's dissatisfaction with Uriel's attempt at a rational theodicy Ezra's subsequent transformation points to the symbolic visions as the locus of the author's apocalyptic solution to the intractable theological problems raised in the dialogues *Systematic Theology* Augustus Hopkins Strong, 1893 **Notes, Explanatory and Practical, on the Epistles of Paul** Albert Barnes, 1873 The Harvard Theological Review, 1913 *Creation's Testimony to Its God, the Accordance of Science, Philosophy, and Revelation.
