## **Creation Evolution And The Age Of The Earth:**

Creation, Evolution, and the Age of the Earth Wayne Jackson, 2003-01-01      The Young Earth Dr. John D. Morris, 2007-10-01 Is the earth billions of years old or just thousands Does it Matter Did God create our world in six literal days or did it evolve on its own over countless eons of time The age of the earth a key question in the creation evolution debate has been portrayed as an issue of science versus religion but is it really that simple The answers to these questions are vital to understanding not just earth science but also the biblical record Dr John Morris The Young Earth scientifically examines the evidence to see what the earth actually reveals about itself This classic and definitive work newly revised and expanded demonstrates that the Bible can be trusted in questions of science and history The Young Earth offers both compelling scientific analysis and effective biblical exposition A powerful resource it also includes a CD with PowerPoint presentations that illustrate such key concepts as salt levels in the oceans the age of the atmosphere the accumulation of ocean sediments and much more Great for presentations and personal study Organized for teaching to groups of all sizes Illustrated slides illuminate important points Scientifically irrefutably the truth of God s world proclaims the truth of God s Word      Thousands... Not Billions Dr. Donald DeYoung, 2005-09-01 Evolutionary models for life earth and space are questioned today by a significant group of scientists worldwide They are convinced that the earth and the entire universe are the result of a supernatural creation event which occurred just thousands of years ago not billions of years Why do conventional methods for dating rocks differ so radically What does carbon 14 found in diamonds tell us Was there accelerated nuclear decay in earth s history Are the creation and Flood accounts genuine historic events These and many other questions are addressed in Thousands Not Billions This book summarizes eight years of research by the Institute for Creation Research ICR and a team of scientists whose goal was to explore the age of the earth from a biblical perspective The project title was Radioisotopes and the Age of The Earth or RATE The age of the earth is one of the most divisive topics today much debated by scholars and laypersons alike What one believes about the age of the earth goes a long way in determining world views The Bible is explicit that the earth is young but many people feel that science has proved our planet is more than four billion year old Thousands Not Billions provides a compelling challenge to Darwinian evolution

**Old-Earth Creationism on Trail** Tim Chaffey, Dr. Jason Lisle, 2008-07-01 Twenty somethings once faithfully attended church What made them stop While most said they still believe that the Bible is God s Word they also said that the idea that the earth is millions of years old was one thing that caused them to doubt the bible The crumbling foundation of the church takes a devastating toll on future generations Therefore churches must reclaim the historical truth found in Genesis and apply the Bible s authority to every area of life Ken Ham President Answers in Genesis As the modern Church struggles to find a place of relevancy for a new generation that already has massive demands on its time and attention more and more young people raised in the Church are leaving it failing to find the answers to their questions of faith and life beset with

doubts raised by issues that the Church chooses not to address Opting to skirt the controversy of Genesis as literal history the biblical authority of the Holy Word is called into question and reduced to a collection of mere stories More popularly considered an issue for schools or in the public realm the conflicting views on the age of the earth also remain a pivotal issue within the Church as it has for over two centuries Was the Creation week literally six days Does science really point to an old earth Does the issue really matter for Christians Should this issue even be discussed within the Church Join authors Dr Jason Lisle and Tim Chaffey as they put forth a case against an old earth interpretation of Scripture A comprehensive biblical theological and scientific critique of old earth creationism the book presents its compelling testimony in layman s terms to create a powerful debate that leads to unquestionable truth

**Four Views on Creation, Evolution, and Intelligent Design** Zondervan,2017-11-21 Evolution or the broader topic of origins has enormous relevance to how we understand the Christian faith and how we interpret Scripture Four Views on Creation Evolution and Intelligent Design presents the current state of the conversation about origins among evangelicals representing four key positions Young Earth Creationism Ken Ham Answers in Genesis Old Earth Progressive Creationism Hugh Ross Reasons to Believe Evolutionary Creation Deborah B Haarsma BioLogos Intelligent Design Stephen C Meyer The Discovery Institute The contributors offer their best defense of their position addressing questions such as What is your position on origins understood broadly to include the physical universe life and human beings in particular What do you take to be the most persuasive arguments in defense of your position How do you demarcate and correlate evidence about origins from current science and from divine revelation What hinges on answering these questions correctly This book allows each contributor to not only present the case for his or her view but also to critique and respond to the critiques of the other contributors allowing you to compare their beliefs in an open forum setting to see where they overlap and where they differ

**Controversy of the Ages** Theodore Cabal,Peter Rasor, II,2018-08-08 Controversy of the Ages carefully analyzes the debate by giving it perspective Rather than offering arguments for or against a particular viewpoint on the age of the earth the authors take a step back in order to put the debate in historical and theological context The authors of this book demonstrate from the history of theology and science controversy that believers are entitled to differ over this issue while still taking a stand against theistic evolution But by carefully and constructively breaking down the controversy bit by bit they show why the age issue is the wrong place to draw a line in the sand

**Creation and Evolution** Alan Hayward,2005-01-26 Even non Christian scientists are attacking the traditional evolutionary theory still taught in many schools as fact In Creation and Evolution British physicist Dr Alan Hayward draws evidence solely from these non Christian researchers to discredit gradual evolution and Darwin s mechanism of natural selection Hayward also examines in detail young earth theories flood geology and geological testimony to an ancient earth In the end he suggests a surprising interpretation of Genesis that argues for both a historical Adam and creation over eons of time Bowing neither to theistic evolution nor scientific creationism Hayward writes from the

perspective of a Christian physicist committed both to a high view of Scripture and to rigorous honesty with scientific data

**Six Days** Ken Ham, 2013 Today most Bible colleges seminaries K 12 Christian schools and now even parts of the homeschool movement do not accept the first eleven chapters of Genesis as literal history They try to fit the supposed billions of years into Genesis and some teach evolution as fact Our churches are largely following suit Ken Ham international speaker and author on biblical authority examines how compromise starting in Genesis particularly in regard to the six days of creation and the earth's age have filtered down from the Bible colleges and seminaries to pastors and finally to parents and their children American Creationism, Creation Science, and Intelligent Design in the Evangelical Market Benjamin L.

Huskinson, 2020-08-19 In this compelling and thoroughly researched book Benjamin Huskinson demonstrates that just as there is broad diversity within evangelicalism so too there is broad diversity among creationists His work on the Intelligent Design movement is superb and he prompts me to rethink my long held conviction that Intelligent Design is merely the most recent evolutionary form of creationism This is a very fine book Randall Balmer Author of *Evangelicalism in America* and writer host of *In the Beginning The Creationist Controversy* Benjamin Huskinson's study of American creationism will be an eye opener for those who sit on the opposite side of the evolution debate He shows that far from being a unified assault on Darwinism the campaign was actually a sequence of separate movements launched by rival evangelical groups competing for influence within their own community Peter Bowler Author of *Monkey Trials and Gorilla Sermons Evolution and Christianity from Darwin to Intelligent Design* A thoughtful and careful analysis that throws as much light on the diversity of American evangelicalism as it does on Christian attitudes to evolutionary theory Huskinson offers a smart analysis of religious anti evolution movements which neither demonises nor ridicules but seeks to understand the tenets and beliefs of a movement far more complex and multivalent than most of us appreciate A must read for science communicators Philippa Levine Walter Prescott Webb Chair in History and Ideas University of Texas at Austin USA This book explores the cultural history of anti evolution efforts in the United States from 1960 to the present refuting several popular narratives about creation science in evangelical America Separating theological terms like creationism from cultural movements such as creation science and intelligent design in an evangelical marketplace of ideas it contests assumptions that evangelical movements against evolution are homogeneous and it argues that intelligent design is not an off shoot of the creation science movement It demonstrates that the rationale of creationist groups is relational as well as ideological showing that the social function of American creationism which is to establish the boundaries of orthodox religion is key to understanding the competing strategies of creation science organisations **Faith Reads** David Rainey, 2008-07-30 At last a resource for librarians who wish to build or develop their nonfiction collection and use it to better serve the needs of adult Christian readers Covering the three major branches of Christianity Roman Catholic Protestant and Orthodox the author organizes more than 600 titles into subject categories ranging from biography the arts and education to theology devotion and spiritual warfare Award

winning classics are noted Introductory narrative frames the literature and helps librarians better understand Christian literature and learn how to establish selection criteria for building a Christian nonfiction collection *Science and Earth History* Arthur N. Strahler,1999-11-01 In this comprehensive treatment of the ongoing conflict between creationists and evolutionary scientists well known geomorphologist Arthur Strahler carefully examines creationists claims of scientific evidence for the six day divine creation of the universe followed by the catastrophic flood of Noah as claimed in Genesis The creationists arguments are examined and evaluated against the findings of mainstream science in the fields of cosmology astronomy geophysics geology paleontology and evolutionary biology Updated with a new preface and responses to recent attacks on evolutionary theory *Science and Earth History* can serve as both a popular overview of earth history and as a scholarly anecdote to the fictions of creationism once again finding their way into classrooms and universities Strahler illuminates the controversy by reviewing the philosophy methodology and sociology of empirical science as contrasted with the belief systems of religion and pseudoscience The author also includes lucid criteria for distinguishing science from pseudoscience and reviews the great discoveries and developments in science that point to the evolution of life over the earth's three billion year history **40 Questions About Creation and Evolution** Kenneth D. Keathley,Mark F. Rooker ,2014-10-10 Biblically and scientifically informed answers to pressing questions about the creation evolution debate This accessible volume evenly addresses the issues of modern science and the scriptural texts The conservative evangelical authors are well informed on contemporary scientific views of the universe and also carefully exegete the biblical texts that pertain to creation They irenically consider the various angles of the debate and make constructive suggestions to reconcile science and the Bible Those who are curious about the origins of life and the universe will want to read this book Seminary students and serious college students will find this information critical as an understanding of creation is vital to an effective apologetic in sharing the faith *The World and the Word* Eugene H. Merrill,Mark F. Rooker,Michael A. Grisanti,2011 Three esteemed Old Testament professors introduce students to the first eighty percent of the Bible freshly illuminating the text as a rich source of theology and doctrine packed with practical principles for modern times **Dictionary of Christianity and Science** Zondervan,2017-04-25 The definitive reference work on science and Christian belief How does Christian theology relate to scientific inquiry What are the competing philosophies of science and do they work with a Christian faith based on the Bible No reference work has covered this terrain sufficiently until now Featuring entries from over 140 international contributors the *Dictionary of Christianity and Science* is a deeply researched peer reviewed fair minded work that illuminates the intersection of science and Christian belief In one volume you get reliable summaries and critical analyses of over 450 relevant concepts theories terms movements individuals and debates You will find answers to your toughest questions about faith and science from the existence of Adam and Eve to the age of the earth evolution and string theory **FEATURES INCLUDE** Over 450 entries that will help you think through some of today's most challenging

Evolution** Daniel A. Biddle, 2015-12-20 This book is essential for Christians attending public high school or college especially before they take biology or earth science classes Written by leading Creation Scientists this book provides solid answers to these critical questions that will help Christian high school and college students solidify their faith and grow roots to withstand the evolution based teaching in today's schools The topics covered include Can We Trust the Bible Did Noah's Flood Really Happen The Age of the Earth Dating Methods and Evolution Do Fossils Show Evolution Natural Selection Darwin's Finches Whale Evolution Human Evolution What about the Race Groups Chimp Human DNA Similarities Vestigial Structures *The Counter-Creationism Handbook* Mark Isaak, 2007-01-12 Those opposed to the teaching of evolution often make well rehearsed claims about science that sound powerful and convincing This work seeks to serve as a resource for addressing over 400 of the most prevalent claims made by creationists Each claim is followed by a scientifically valid rebuttal

*Creation Compromises* Bert Thompson, 1995 **Creation/evolution**, 1989 [The Re-Creation of Planet Earth and the Real Account of Life's Beginnings](#) Brian Donnelly, 2017-03-24 Have you ever wondered why there is such a huge discrepancy between what scientists say about the age of our planet and what the Bible says According to scientists the planet is 4.6 billion years old Yet the Bible says that this planet Earth is only six thousand years old But what if both were right What if there was an analysis of creation that combined science with scripture in the search for truth yielding a unique and

provocative conclusion about life's beginning In *The Re Creation of Planet Earth and the Real Account of Life's Beginnings* author Brian Donnelly explores just this integration of science and biblical truth to provide a more realistic account of creation and re creation He addresses the ongoing debate between creation science and evolutionary biology and he shows how creation is more viable than evolutionary theory and the big bang *The Re Creation of the Planet Earth and the Real Account of Life's Beginnings* also speaks to the life and ministry of Jesus Christ and it provides a detailed description of what heaven is like an account supported by scripture and near death experiences Having a complete view of creation re creation heaven and life's beginnings will help you better understand how God relates to us today But even more this understanding can go on to help you see through the fog of the world and better relate to God as a believer **Fides Et Historia** ,1992
