Creation In Crisis:

Creation in Crisis Robert S. White, 2009 Creation is in crisis Why then do we continue in activities that are manifestly harmful to ourselves and to others Part of the answer is undoubtedly ignorance about what we are actually doing But part is also that we do not want to face up to the fact that the material comforts we enjoy are bought at a cost to other people and to the natural world This volume highlights the seriousness of environmental degradation and climate change the root causes and possible solutions and the contribution of Christian thinking to these issues Both scientific and theological points of view are presented by the distinguished writers Richard Bauckham Richard Carter Flavio Comim Ellen F Davis Calvin B DeWitt John Guillebaud Donald A Hay Sir Brian Heap Sir John Houghton James J McCarthy Hilary Marlow Douglas J Moo Jonathan Moo Pete Moore Michael Northcott C Ren Padilla Robert S White and George Wilkes In these pages Robert White has assembled a remarkable cast Indeed if you were to lay on an international conference of specialists with expertise from different disciplines to reflect on the present state and the future hope of the earth from a Christian perspective you could hardly get a finer line up Their gift to the reader is that they are able to write so that those of us who are not experts might understand James Jones Bishop of Liverpool

Creation in Crisis Joshtrom Isaac Kureethadam, 2014-10-10 When we speak of the environmental crisis facing the planet we reduce the coming catastrophe to a physical problem In *Rediscovering Our Home* Joshtrom Kureethadam seeks to extend the current understanding of what is truly an ecological crisis to include ethical and spiritual perspectives arguing that the crisis is not merely an environmental problem but is truly ecological a discourse about our common home oikos in nature In its careful incorporation of the latest science around issues such as environmental degradation pollution climate change and food production this book also enters into dialogue with various disciplines in understanding the contemporary ecological crisis adding to this theological meditation a depth of vision that yields up profound insights about our present milieu and future home

Creation-Crisis Preaching Leah D. Schade, 2015-09-01 How can we proclaim justice for God's Creation in the face of global warming How does fracking fit with the earth and its fullness are the Lord's Creation Crisis Preaching works with the premise that all of Creation including humankind needs to hear the Good News of Jesus resurrection in this age in which humanity is crucifying Creation Informed by years of experience as an environmental activist and minister Leah Schade equips preachers to interpret the Bible through a green lens become rooted in environmental theology and learn how to understand their preaching context in terms of the particular political cultural and biotic setting of their congregation Creation Crisis Preaching provides both theoretical grounding and practical tips for preachers to create environmental sermons that are relevant courageous creative pastoral and inspiring

Climate Crisis and Creation Care Christine Nellist, 2021-09-28 This volume considers the interconnectedness of all creatures in relation to our planetary boundaries Through our constant consumption of resources we have had a distinctly negative impact on the world around us affecting everything from the weather food availability sea
