environment and takes in scientific biblical moral and spiritual themes all addressed by recent Church teaching on the subject The starting point is a detailed analysis of the various problems assailing the environment at present Then a distinction is made between the science of ecology and the ideological overtones which are often associated with this area Next an overview of Christian teaching on ecology is present as an antidote to both New Age pseudo mysticism and political ideology A Christian theology of the environment is then formulated which has consequences for our moral life and our prayer PAUL HAFFNER is a priest and professor of theology at Regina Apostolorum University in Rome visiting professor at the Pontifical Gregorian University and adjunct lecturer at Duquesne University Roman Campus Author of over 20 books and 100 articles on philosophical and theological themes many of his works have been translated into several languages including Italian Spanish Portuguese and Russian Other published volumes by this author include *Mystery of Creation* *Mystery of the Church* *The Mystery of Mary* *The Mystery of Reason* and *The Sacramental Mystery* all from Gracewing
