## **Creations Tiny Mystery:**

Creation's Tiny Mystery Robert V. Gentry, 1988 Documents scientific evidence for instantaneous creation of Earth and recounts opposition of scientific community to this discovery      *Creation Rediscovered* Gerard J. Keane, 1998-10 The author covers the basic question the two basic Evolution theories the concept of Special Creation the discoveries of science the fossil record genetics entropy the age of the universe pointers to a Creator and a number of other questions Not enough can be said for the importance of this book to get the fundamentals right regarding our Origins in order that the rest of our thought and all our actions are based upon the truth      *The Conflict of the Ages Student Edition III They Deliberately Forgot*

Michael J. Findley, Mary C. Findley, The worldwide Flood is one of the most discounted records in the Scriptures Yet it is supported around the world by historical accounts Take a look at feasibility studies on the safety and the stocking of the Ark The Geologic Column ought to prove that fossils reveal the age of the earth They show progression from simple to complex organisms over millions of years But do they Take a look at living fossils Meet the extinct creature found only in the oldest layers but more complex than later life forms Consider the real conditions that surrounded the Flood and the Ice Age

Creation/evolution , 1995      The Creationists Ronald L. Numbers, 1993-01-01 Forty seven percent of the American people according to a 1991 Gallup poll believe that God made man as man is now in a single act of creation and within the last ten thousand years Ronald L Numbers chronicles the astonishing resurgence of this belief since the 1960s as well as the creationist movement s tangled roots in the theologies of late nineteenth and early twentieth century Baptists Presbyterians Lutherans Adventists and other religious groups Even more remarkable than Numbers s story of today s widespread rejection of the theory of evolution is the dramatic shift from acceptance of the earth s antiquity to the insistence of present day scientific creationists that most fossils date back to Noah s flood and its aftermath and that the earth itself is not more than ten thousand years old Numbers traces the evolution of scientific creationism and shows how the creationist movement challenges the very meaning of science

**The Genesis Flood Revisited** Andrew Snelling, 2022-10-25 Modeled after the 1961 ground breaking book *The Genesis Flood* by Drs Whitcomb and Morris this detailed work builds on that classic volume with new insights from decades of work by the author Dr Andrew Snelling and numerous colleagues This recent revolution in geology and the explosion in geological research have established an even firmer basis for understanding the biblical Flood with a God honoring foundation the absolute authority and inerrancy of God s Word Examine details of the Creation Week as it builds a solid scriptural case for the Flood s catastrophic nature and global extent Find decisive answers to many questions about the Flood and Noah s Ark its construction and the animals taken onboard Delve deeply into astonishing geological details that unfold from the early chapters of Genesis including the Creation Week and the pre Flood world Explore detailed evidence and a concise informative 30 page color section with diagrams maps and more Dr Snelling jettisons the faulty evolutionary uniformitarian assumptions used by most geologists and instead interprets compelling new geological and

observed field data within the biblical framework for the earth's history. He also demonstrates that fossils were catastrophically buried in sedimentary layers being deposited rapidly on a global scale on the continental plates derived from the violent rifting apart of the original supercontinent. His work demolishes radiometric dating, the icon of the millions of years dogma, and builds a thoroughly powerful case for a young earth that explains many geological features such as varves, evaporites, coal, oil, chalk, granites, and more that biblical skeptics sadly have used to scoff at God's Word. Discover the powerful truth behind the earth's most enduring mysteries. *Creation and Time* Hugh Norman Ross, 1994. How can we love the Lord our God with all our heart, soul, mind, and strength if we must separate our minds from our faith, asks Dr. Hugh Ross. In *CREATION AND TIME*, Dr. Ross provides a solution to the creation date controversy that requires no compromise by either the scientist trusting in the facts of nature or the Christian holding to the inerrancy of Scripture. In the Beginning-- Walter Tarleton Brown, 1989. The Origin of Species Revisited: Philosophy of science, philosophy of religion, history, education, and constitutional issues Wendell R. Bird, 1991. Presents an in-depth comparison of Darwin's theory of evolution versus the theory of creation and the theory of abrupt appearance. **Creation Scientists Answer Their Critics** Duane T. Gish, 1993. Discusses the arguments between creation scientists and evolutionists. **Creation Research Society Quarterly** Creation Research Society, 2005. Creation as Science Hugh Norman Ross, 2006. An in-depth study of history, theology, and science gets to the heart of the tempest over the creation versus evolution wars. Light breaks through the clouds of confusion as bestselling author and respected astronomer Ross unveils a testable creation model that can settle this raging dispute. *Homiletic Review*, 1906. Science and the Bible; or, the Mosaic Creation and modern discoveries Herbert William Morris, 1873. *Spectrum*, 1969. *The Homiletic Review*, 1906. *Metropolitan Pulpit and Homiletic Monthly*, 1906. **Choice**, 2001. *Geology 1999-2000* Doug Sherman, 1998-08. This reader of public press articles addresses the current state of Earth and the changes it faces: world populations and hunger, present and future needs and problems, endangered species, natural resources, and pollution. **Perspectives on Science and Christian Faith**, 1989.
