ENTERPRISE delivers timely useful information on careers small business and personal finance      The Platinum Workforce  
 Trond Arne Undheim, 2025-11-25 Artificial intelligence is already causing a major shift in the nature of work Countries  
 colleges or employers are not prepared to continuously train billions of knowledge workers to compete in this new economic  
 reality But that s not all More change is coming due to the polycrisis of pressing challenges such as sustainability social  
 inequality and geopolitical instability Figuring out what career paths skills and talents we need to nurture has never been  
 more urgent especially for those who aspire to leadership In The Platinum Workforce futurist and technologist Trond Arne  
 Undheim reveals how to be a changemaker in the ongoing re industrial transition Industrial principles such as lean  
 manufacturing technological advancement and production at scale meet significant sustainability challenges increased risks  
 and intricate inequality concerns from the Global South as well as from workers in advanced societies who also feel left  
 behind Undheim has spent the last decade examining the technologies risks and trends shaping the future of work Helping  
 startups shaping governance policies teaching students and building educational programs he has found that there are two  
 core skills and ten complementary skills that will define both individual and collective success in the future of work The core  
 skills are deft human AI collaboration and an innate interoperability mindset but teams together mastering the ten  
 complementary skills eco awareness maker skills mediation skills megascale operations mobility risk aptitude R D hacks  
 psycho resilience sociotechnical finesse and systems thinking is what will define future leadership Leading the 21st century  
 workplace will require unprecedented levels of human AI collaboration But evolving new forms of augmented intelligence  
 will not be easy We all have to train for it constantly adapting to new interfaces and watching out for risks that could derail  
 progress or create new problems But the challenge does not stop there Tackling the cascading effects of evolving hazards  
 requires astute risk management Transdisciplinary skills such as an entrepreneurial approach megascale execution ability  
 and socio technical skills will need to be constantly honed Leaders and workers alike need to develop an interoperability  
 mindset Success requires adapting to and helping others adapt to the fundamental shifts in the materials methods tools and  
 technologies fueling the intricate cultural machine we call society No matter our degrees experiences resources or current  
 skill sets to compete in this new world we need a reset      **The Ohio State Engineer** ,1941      Popular Science ,1966-02
