Wormeli argument that writing is a form of thinking and feeling and shows why it can t be replaced by AI In the age of
artificial intelligence drafting an essay is as simple as typing a prompt and pressing enter What does this mean for the art of
writing According to longtime writing teacher John Warner not very much More Than Words argues that generative AI
programs like ChatGPT not only can kill the student essay but should since these assignments don t challenge students to do
the real work of writing To Warner writing is thinking discovering your ideas while trying to capture them on a page and
