**Ethics of Data and Analytics** Kirsten Martin, 2022-05-12 The ethics of data and analytics in many ways is no different than any endeavor to find the right answer When a business chooses a supplier funds a new product or hires an employee managers are making decisions with moral

implications The decisions in business like all decisions have a moral component in that people can benefit or be harmed rules are followed or broken people are treated fairly or not and rights are enabled or diminished However data analytics introduces wrinkles or moral hurdles in how to think about ethics Questions of accountability privacy surveillance bias and power stretch standard tools to examine whether a decision is good ethical or just Dealing with these questions requires different frameworks to understand what is wrong and what could be better Ethics of Data and Analytics Concepts and Cases does not search for a new different answer or to ban all technology in favor of human decision making The text takes a more skeptical ironic approach to current answers and concepts while identifying and having solidarity with others Applying this to the endeavor to understand the ethics of data and analytics the text emphasizes finding multiple ethical approaches as ways to engage with current problems to find better solutions rather than prioritizing one set of concepts or theories The book works through cases to understand those marginalized by data analytics programs as well as those empowered by them Three themes run throughout the book First data analytics programs are value laden in that technologies create moral consequences reinforce or undercut ethical principles and enable or diminish rights and dignity This places an additional focus on the role of developers in their incorporation of values in the design of data analytics programs Second design is critical In the majority of the cases examined the purpose is to improve the design and development of data analytics programs Third data analytics artificial intelligence and machine learning are about power The discussion of power who has it who gets to keep it and who is marginalized weaves throughout the chapters theories and cases In discussing ethical frameworks the text focuses on critical theories that question power structures and default assumptions and seek to emancipate the marginalized Genetic Engineering News ,1998 Veterinary Practice News ,2009-06 The Times Index ,2011 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement Feather Fancier ,2003 Index de Périodiques Canadiens ,1998 Cumulative Index to Nursing Literature Cinahl Information Systems Staff,1999
