**Battlegrounds** Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club s Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today s great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future *Four Battlegrounds* argues that four key elements define

this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U.S. Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order

An Anthology of Global Risk SJ Beard, Tom Hobson, 2024-09-03 This anthology brings together a diversity of key texts in the emerging field of Existential Risk Studies It serves to complement the previous volume The Era of Global Risk An Introduction to Existential Risk Studies by providing open access to original research and insights in this rapidly evolving field At its heart this book highlights the ongoing development of new academic paradigms and theories of change that have emerged from a community of researchers in and around the Centre for the Study of Existential Risk The chapters in this book challenge received notions of human extinction and civilization collapse and seek to chart new paths towards existential security and hope The volume curates a series of research articles including previously published and unpublished work exploring the nature and ethics of catastrophic global risk the tools and methodologies being developed to study it the diverse drivers that are currently pushing it to unprecedented levels of danger and the pathways and opportunities for reducing this In each case they go beyond simplistic and reductionist accounts of risk to understand how a diverse range of factors interact to shape both catastrophic threats and our vulnerability and exposure to them and reflect on different stakeholder communities policy mechanisms and theories of change that can help to mitigate and manage this risk Bringing together experts from across diverse disciplines the anthology provides an accessible survey of the current state of the art in this emerging field The interdisciplinary and transdisciplinary nature of the cutting edge research presented here makes this volume a key resource for researchers and academics However the editors have also prepared introductions and research highlights that will make it accessible to an interested general audience as well Whatever their level of experience the volume aims to challenge readers to take on board the extent of the multiple dangers currently faced by humanity and to
