control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future Four Battlegrounds argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order

Taming Silicon Valley Gary F. Marcus, 2024-09-17 How Big Tech is taking advantage of us how AI is making it worse and how we can create a thriving AI positive world On balance will AI help humanity or harm it AI could revolutionize science medicine and technology and deliver us a world of abundance and better health Or it could be a disaster leading to the downfall of democracy or even our extinction In *Taming Silicon Valley* Gary Marcus one of the most trusted voices in AI explains that we still have a choice And that the decisions we make now about AI will shape our next century In this short but powerful manifesto Marcus explains how Big Tech is taking advantage of us how AI could make things much worse and most importantly what we can do to safeguard our democracy our society and our future Marcus explains the potential and potential risks of AI in the clearest possible terms and how Big Tech has effectively captured policymakers He begins by laying out what is lacking in current AI what the greatest risks of AI are and how Big Tech has been playing both the public and the government before digging into why the US government has thus far been ineffective at reining in Big Tech He then offers real tools for readers including eight suggestions for what a coherent AI policy should look like from data rights to layered AI oversight to meaningful tax reform and closes with how ordinary citizens can push for what is so desperately needed *Taming Silicon Valley* is both a primer on how AI has gotten to its

problematic present state and a book of activism in the tradition of Abbie Hoffman's *Steal This Book* and Thomas Paine's *Common Sense*. It is a deeply important book for our perilous historical moment that every concerned citizen must read.
