Market-Oriented Disinformation Research Carlos Diaz Ruiz, 2025-03-25 Market Oriented Disinformation Research explores the spread of false or misleading information online through the lens of marketing theory and consumer research It examines how the business models of digital platforms and advertising technology firms AdTech generate digital markets that incentivize the circulation of harmful content for profit Rather than viewing disinformation and misinformation as accidental byproducts the book proposes that they thrive in the current markets designed for digital advertising and influencer marketing Readers will learn how the amplification of disinformation can be linked to social media's business model Examples include how social media algorithms promote addictive content how fake news sites use ad fraud to lure in advertising revenue and how some content creators rely on clickbait ragebait bots and conspiracy theories to boost their engagement metrics The book is a must read for scholars in journalism media studies and political communication as well as policymakers interested in the democratic governance of social media platforms In addition it calls for digital marketing advertising and brand management

professionals to take responsibility for their ad spending by advocating for greater oversight over AdTech intermediaries to prevent unethical actors from monetizing the harmful content that polarizes society and undermines democratic institutions

Increase sales and lead generation with AI and chatbots Krzysztof Wroblewski,2023-07-10 To grow your ecommerce business you need to gain more clients And to achieve it you have to provide high quality customer experience Sounds logical But the more visitors on your website the more questions your support agents have to handle And here is the challenge you need to face to successfully grow your store How to serve more clients answer more questions and maintain the highquality of support at the same time There are two ways The first is to constantly hire new support agents It probably will work but the cost you ll have to take for constantly recruiting and training new employees will be huge The second way is connected to technology that took the ecommerce industry and not only this one by a storm and will stay with us for a long time If not forever The AI

AI Agents vs. AI Chatbots: A Strategic Guide for B2B Customer Service Branislav Bozanic,2025-04-01 In 2021 Uber was expanding at a staggering rate but growth came at a cost After pandemic related restrictions eased the multinational American transportation company faced severe driver shortages and regulatory hurdles that slowed the hiring of new drivers Wait times surged prices fluctuated and customer frustration grew One of the biggest bottlenecks was due to customer support The high volume of tickets coming in across multiple channels required manual processing And therein lay their problem Even Uber couldn t keep up with all the customer support demands This resulted in slow response times inconsistent resolutions and high operational costs However their team didn t panic There was an obvious solution AI driven technologies More precisely an AI powered robotic process automation RPA system Uber quickly implemented RPA to categorize tickets and handle repetitive and time consuming customer support tasks The results Processing time for common issues dropped from days to minutes Customer satisfaction skyrocketed with faster response times Cost savings were massive with the company revenue growing from 17 to 32 billion US dollars the following year 1 Thanks to chatbots and now AI agents automating customer service is getting easier cheaper and more scalable These digital assistants can answer customer questions and automate simple tasks based on a specific set of data But only one of them can also make dynamic decisions plan actions and even learn from experiences offering unparalleled service Curious to know which one is the all around solution that is more suitable for the B2B ecosystem This ebook aims to demystify the differences between AI Agents and AI Chatbots provide their respective benefits and help businesses make the right choice according to their unique customer service requirements

Improve customer experience with chatbots Beata Stefanowicz,2023-02-13 We have come a long way in the past 70 years since chatting to a computer was first mentioned A chatbot is a computer program that communicates with human users over text or through a speech to text system Businesses can use chatbots to communicate with their customers and recreate the in store shopping experience online Ecommerce companies can do this by Welcoming visitors to their online storeOffering support within arm s reachShowing personalized
