Evaluating Digital Sources in Journalism Ståle Grut, 2023-12-28 Building on a rich journalistic tradition of critical source analysis, this book considers the impact of the move from analogue to digital sources on information quality and presents methods and tools to verify information found online and help counter the spread of misinformation. Evaluating

Digital Sources in Journalism critically maps the prevalence of online manipulation particularly images and videos from social media platforms and considers the tools needed both to carry out and to counter this. Strategies are proposed to help readers evaluate content context and sources and ultimately build a foundation for carrying out their own online open source investigations. The author brings together theories and best practices from a broad range of literature including modern Scandinavian research on the concept of source criticism, journalism and technology studies, advanced forensic verification research and literature designed for practitioners including blogs and industry publications. Evaluating Digital Sources in Journalism is recommended reading for advanced journalism students and journalism practitioners. Writing and Editing for Digital Media Brian Carroll, 2025-12-12. An essential guide to writing and editing for digital media, this sixth edition responds to the mainstreaming of genAI, Generative AI and LLMs, Large Language Models among many other changes in the best practices of digital storytelling. Carroll explains and demonstrates how to effectively write for digital spaces and places that typically abound with graphical content, multimedia and hypertextual interactive elements. He also combines hands-on practical exercises with information on key topics such as misinformation and disinformation and the proliferation of artificial intelligence. This new edition specifically explores the ethical questions raised by AI as well as the new possibilities it presents. Each chapter features lessons and exercises through which students can build a solid understanding of the ways that digital communication provides opportunities for dynamic storytelling and multi-directional communication. It also speaks to writers, editors, public relations practitioners and social media managers and marketers. Updated with contemporary examples and new pedagogy throughout, this is the ideal handbook for students seeking careers in digital media, particularly in content development and digital storytelling. It is an essential text for students of media communication, public relations, marketing and journalism who are looking to develop their writing and editing skills for these ever-evolving fields and professions. This book also has accompanying Support Material that offers additional weekly activities and assignments, providing students additional opportunity to put theory into practice.
