A Beginner's Guide to Introduce Artificial Intelligence in Teaching and Learning Muralidhar Kurni, Mujeeb Shaik Mohammed, Srinivasa K G, 2023-06-28 This book reimagines education in today's Artificial Intelligence AI world and the Fourth Industrial Revolution. Artificial intelligence will drastically affect every industry and sector, and education is no exception. This book aims at how AI may impact the teaching and learning process in education. This book is designed to demystify AI for teachers and learners. This book will help improve education and support institutions in the phenomena of the emergence of AI in teaching and learning. This book presents a comprehensive study of how AI improves teaching and learning from AI-based learning platforms to AI-assisted proctored examinations. This book provides educators, learners, and administrators on how AI makes sense in their everyday practice. Describing the application of AI in ten key aspects, this comprehensive volume prepares educational leaders, designers, researchers, and policymakers to effectively rethink the teaching and learning process and environments that students need to thrive. The readers of this book never fall behind the fast pace and promising innovations of today's most advanced learning technology. **Empowering Educators:**

Integrating AI Tools for Personalized Language Instruction Vu Phi Ho Pham, Andrew Lian, Ania Lian, Jeremy White, 2025-11-01 This book examines the use of AI technology, particularly ChatGPT, in English language education. This 15-chapter anthology examines the pedagogical, ethical, and cognitive aspects of AI-enhanced instruction, utilizing research from Vietnam and global contexts. Section I: Chapters 2-8, *AI Integration in Language Teaching and Learning*, analyzes the role of AI in language instruction and acquisition, encompassing emotional intelligence, rubric-based assessment, IELTS preparation, and educator identification. Section II: Chapters 9-13, *AI-Enhanced Language Learning Skills and Practices*, examines AI-augmented language learning methodologies, addressing vocabulary acquisition, learner independence, and chatbot-assisted education. Section III: Chapters 14-15, *AI in Translation and Support Systems*, examines artificial intelligence in translation and academic assistance systems. The book emphasizes the transformative potential as well as the dangers of excessive dependence, academic misconduct, and insufficient teacher training. Highlighting ethical integration and human-AI collaboration, it offers pragmatic ideas for educators, academics, and policymakers. **Empowering educators envisions AI as a strategically augmenting, not supplanting, teachers in the establishment of sustainable and inclusive language learning settings.** **Transforming**

Special Education Through Artificial Intelligence Walters, Annette G., 2024-10-25 Special education encounters distinct challenges in delivering personalized and practical assistance to students with disabilities. Educators frequently require support to address the varied needs of these students, resulting in learning and development gaps. Moreover, early identification and catering to these needs can take time and effort, affecting students' long-term academic success. There is an urgent need for innovative solutions that can bridge these gaps and improve the educational experiences of students with disabilities. *Transforming Special Education Through Artificial Intelligence* offers a comprehensive exploration of how

Artificial Intelligence AI can transform special education by providing personalized and individualized support for students with disabilities Through case studies and real life examples we demonstrate how AI can analyze data to tailor learning experiences and most importantly identify learning difficulties early This crucial aspect of AI can significantly enhance communication among stakeholders and reassure them about the potential of AI in improving educational outcomes for students with disabilities
