variety of disciplines the dialogue and discourse on how AI artificial intelligence development includes and or excludes
pedagogical educational learning theories focused on the learner A call from Educational Leaders Without Borders ELWB
was issued to scholars from across the globe who were asked to write a vignette described as an evocative description or
account on how education leaders envision education in 2051 and A I beyond mere product purchase These vignettes should
engage us in questions as to how the development and use of AI technologies are shaped As educators who believe education
should be established on social justice beliefs and practices our review of literature shows there are no books addressing the
complexities of A I development and the role of educators The futuristic element is unique in its approach to imagine a
