**What is Affiliate Marketing?** Affiliate marketing is a business model where you earn a commission by promoting third-party products or services. In essence, you become an affiliate who recommends products to your audience, and when a purchase is made through your affiliate link, you receive a percentage of the sale.

**How does affiliate marketing work?** The process starts with choosing an affiliate program. These programs can be found on dedicated platforms like Amazon Associates, ShareASale, or specific programs offered for individual businesses. Once you sign up, you receive a unique link that tracks sales generated through your recommendations. When a visitor clicks on your link and makes a purchase, the transaction is recorded, and the commission is credited to your account. This commission may vary depending on the program, product, and agreed conditions.

**History and Evolution** Affiliate marketing emerged in the late 90s with the growth of e-commerce. Over time, it has evolved to become a popular and effective strategy for businesses looking to expand their reach and for individuals looking to make money online. Today, affiliate marketing is one of the most accessible ways to generate passive income thanks to the diversity of programs and tools available.
