Hybrid Intelligent Systems Ajith Abraham, Tzung-Pei Hong, Ketan Kotecha, Kun Ma, Pooja Manghirmalani Mishra, Niketa Gandhi, 2023-05-24 This book highlights the recent research on hybrid intelligent systems and their various practical applications. It presents 97 selected papers from the 22nd International Conference on Hybrid Intelligent Systems HIS 2022 and 26 papers from the 18th International Conference on Information Assurance and Security which was held online from 13 to 15 December 2022. A premier conference in the field of artificial intelligence and machine learning applications, HIS IAS 2022 brought together researchers, engineers, and practitioners whose work involves intelligent systems, network security, and their applications in industry. Including contributions by authors from over 35 countries, the book offers a valuable reference guide for all researchers, students, and practitioners in the fields of Computer Science and Engineering.

Deep Learning for Social Media Data Analytics Tzung-Pei Hong, Leticia Serrano-Estrada, Akрати Saxena, Anupam Biswas, 2022-09-18 This edited book covers ongoing research in both theory and practical applications of using deep learning for social media data. Social networking platforms are overwhelmed by different contents, and their huge amounts of data have enormous potential to influence business, politics, security, planning, and other social aspects. Recently, deep learning techniques have had many successful applications in the AI field. The research presented in this book emerges from the conviction that there is still much progress to be made toward exploiting deep learning in the context of social media data analytics. It includes fifteen chapters organized into four sections that report on original research in network structure analysis, social media text analysis, user behaviour analysis, and social media security analysis. This work could serve as a good reference for researchers as well as a compilation of innovative ideas and solutions for practitioners interested in applying deep learning techniques to social media data analytics.

Applications of Artificial Intelligence and Machine Learning Ankur Choudhary, Arun Prakash Agrawal, Rajasvaran Logeswaran, Bhuvan Unhelkar, 2021-07-27 The book presents a collection of peer-reviewed articles from the International Conference on Advances and Applications of Artificial Intelligence and Machine Learning ICAAAIML 2020. The book covers research in artificial intelligence, machine learning, and deep learning applications in healthcare, agriculture, business, and security. This volume contains research papers from academicians, researchers, as well as students. There are also papers on core concepts of computer networks, intelligent system design and deployment, real-time systems, wireless sensor networks, sensors, and sensor nodes, software engineering, and image processing. This book will be a valuable resource for students, academics, and practitioners in the industry working on AI applications.

Human + Machine, Updated and Expanded Paul R. Daugherty, H. James Wilson, 2024-09-10 AI, including generative AI, is radically transforming business. Are you ready? Accenture technology leaders Paul Daugherty and Jim Wilson provide crucial insights and advice to help you meet the challenge. Look around you: Artificial intelligence is no longer just a futuristic notion. It's here, right now, in software that senses what we need, supply chains that think in real time, and now generative AI that is radically reshaping work and

productivity Twenty first century pioneer companies are already using AI to innovate and grow fast The bottom line is this Businesses that understand how to harness AI can surge ahead Those that neglect it will fall behind Which side are you on In this updated and expanded edition of Human Machine including a new chapter on gen AI Accenture technology leaders Paul Daugherty and Jim Wilson show that the essence of the AI paradigm shift is the transformation of all business processes within an organization whether related to breakthrough innovation everyday customer service or personal productivity habits As humans and smart machines collaborate ever more closely work processes become more fluid and adaptive enabling companies to change them on the fly or completely reimagine them Based on the authors experience and research with fifteen hundred organizations the book reveals how companies are using the new rules of AI to leap ahead on innovation and profitability and what you can do to achieve similar results It describes six entirely new types of hybrid human machine roles that every company must develop and it includes a leader s guide with the five crucial principles required to become an AI fueled business Human Machine provides the missing and much needed management playbook for success in the new age of AI
