Decoding The Rise Of Made-in-china: Why The Continuity Of Catch-up Ladder Ultimately Matters Bin Guo,2023-03-23 This book provides a novel theoretical framework to explain the real source of competitive advantage of

Chinese manufacturing More importantly such a framework can be generalized to analyze the potential of catch up for large emerging economies in the globalization era The book also provides insights for policy makers to rethink their design of policies The rise of Made in China products has been widely attributed to low labour cost advantage and imitation advantage However as these two advantages are nearly innate to all late developing countries they cannot be regarded as the key factors that drive the rapid growth of China s manufacturing industry or China s economy over the past few decades In this book the author proposed a theory the catch up ladders theory to explain the rise of China s manufacturing industry The manufacturing advancement of any country is in essence a process of catching up in both market and technology during which enterprises will form a ladder like holistic structure due to their differences in capabilities technology and market positioning In light of this the continuity of the catch up ladder will greatly determine the catch up efficiency of an industry and even a country at large Such a perspective is more applicable to large emerging economies especially those with over one hundred million population and thus huge potential domestic market demand **Fast Future** David D.

Burstein,2013-02-12 A millennial examines how his generation is profoundly impacting politics business media and activism They ve been called trophy kids entitled narcissistic the worst employees in history and even the dumbest generation But argues David Burstein the millennial generation s unique blend of civic idealism and savvy pragmatism will enable us to overcome a deeply divided nation facing economic and environmental calamities With eighty million millennials people who are today eighteen to thirty years old coming of age and emerging as leaders this is the largest generation in U S history and by 2020 its members will represent one out of every three adults They are more ethnically and racially diverse than their elders and have begun their careers at a time when the recession has set back the job market Yet they remain optimistic about their future and are deeply connected to one another Drawing on extensive interviews with his millennial peers and compelling new research Burstein illustrates how his generation is simultaneously shaping and being shaped by a fast paced and fast changing world Part oral history part social documentary Fast Future reveals the impact and story of the millennial generation in its own words The Prepared Graduate Kyyah Abdul,2022-01-25 Professional Advice About Career
