companies that win with AI won't be the ones that adopt it. They'll be the ones that rebuild around it. Your old growth playbook is breaking down. AI is collapsing moats, compressing product cycles and reshaping how customers buy. Meanwhile, your teams are still executing strategies built for a slower, more stable world. Market Led Growth shows you how to rebuild fast. This is not a book of tactics. It's a blueprint for transforming how your company senses shifts in demand, adapts GTM in real time and scales with the market, not against it. You'll learn how to decentralize decision making, embed AI into execution and move capital, people and priorities at the speed of market signal. If you're serious about building a company that thrives in the AI era, not just survives it, this is your operating manual.

Inherited Retinal Disease Hyeong-Gon Yu, 2022-02-07
This book presents the latest knowledge and expert guidance on all aspects of inherited retinal diseases including molecular genetics, diagnosis, clinical features, general principles of treatment, novel treatment methods and genetic counseling. Recent years have witnessed great advances in understanding of the genetic and cytological background of these diseases. Genetic analysis methods such as next generation sequencing have remarkably reduced the cost and time required for massive analysis of patients' samples. Studies on gene therapy and stem cell therapy have been successfully carried out in animal models and gene therapy is now available for Leber congenital amaurosis caused by RPE65 mutations. Against this background, *Inherited Retinal Disease* will be an invaluable up-to-date resource for ophthalmologists, medical students and researchers in ocular inflammation. In addition to supplying essential information on each individual disorder, it features many interesting cases contributed by global leaders in the field as well as clinical photographs obtained with newer imaging techniques and numerous images of rare but clinically important diseases.
