Viral Ai Video Editing Software For Moms:

Social Media 2.0 : Powered by Artificial Intelligence (Preparing Future Media Professionals for an AI-Integrated World)

Prof. P. Sasikala, Benny Mathur, 2025-11-13 Social Media 2.0 Powered by Artificial Intelligence Preparing Future Media Professionals for an AI Integrated World is a comprehensive guide designed for students educators and emerging professionals in the field of New Media Studies In an era where social platforms are not just communication tools but intelligent ecosystems this book explores how Artificial Intelligence is reshaping the way we create share consume and interpret content online From AI powered content generation and recommendation systems to data analytics automation and ethical implications the book covers it all in a manner that is both academically grounded and practically applicable Divided into three core sections the first part lays the foundation by examining social media s evolution platform dynamics content planning and branding The second part dives into the transformative role of AI showcasing how machine intelligence is integrated into social platforms from chatbots and sentiment analysis to virtual influencers and personalized feeds The third part is focused on the topic of social media for public relations and how public relations agency can leverage the power of social media Developed with a special focus on the Indian digital landscape this text bridges global trends with local relevance Each chapter is enriched with case studies key concepts real world examples and reflective questions to encourage critical thinking and hands on learning Whether you re a student beginning your journey in digital media or a teacher seeking structured content for your classroom this book offers a future facing framework to navigate and lead in a media environment increasingly shaped by AI

Fake-Checking Andrea Hickerson, Christopher Schwartz, Matthew Wright, 2025-12-16 Designed to help journalists keep pace with the rapid evolution of deepfakes as well as integrate fake checking methods into their routine reporting practices this book offers a concise and accessible guide for reporters navigating this evolving challenge This guide aims to assist journalists in understanding the complexities of deepfakes from a number of angles including philosophical historical technical and methodological Rather than approaching deepfakes as a journalistic apocalypse this book contextualises them in the larger historical practice of fact checking and on a continuum of technological advances in image and video manipulation Encouraging readers to view fact checking as a multimodal process it stresses the importance of combining philosophical and technical tools especially ones based in epistemology and artificial intelligence AI in addition to the pavement pounding essentials of good journalism The book concludes with a chapter addressing how to explain deepfakes to a public progressively more concerned about the realities and consequences of AI and misinformation Fake Checking serves as a practical reference for journalists and advanced media students who are increasingly required to identify and verify potential deepfakes and their future iterations This book is supported by online resources which can be accessed at www.routledge.com/9781032741321

Make Money From Faceless YouTube Automation MRR By Khaled Baoween Khaled Baoween, 2024-04-17 Faceless YouTube Automation MRR appears to refer

to a concept or a business model related to generating Monthly Recurring Revenue MRR through automated YouTube content creation or management without revealing the creator's identity or showing their face on the platform. This could involve various strategies such as Automated Content Creation Using software or algorithms to generate and upload videos automatically based on certain criteria like trending topics, keywords, or specific niches; Content Curation Curating existing videos from other creators or sources and compiling them into thematic playlists or channels; Monetization Strategies Implementing various monetization methods such as ads, sponsorships, affiliate marketing, or selling digital products/services related to the content niche; SEO and Marketing Automation Leveraging automation tools for search engine optimization, SEO, social media marketing, and audience engagement to drive traffic and increase visibility; Outsourcing and Delegation Hiring freelancers or virtual assistants to handle different aspects of content creation, management, and promotion. The term "faceless" suggests that the creator prefers to remain anonymous or undisclosed, possibly to avoid personal branding or to maintain privacy. This approach allows focusing solely on the content and its profitability without associating it with a specific individual. MRR or Monthly Recurring Revenue is a key metric for subscription-based businesses, indicating the predictable revenue generated from subscriptions or recurring payments on a monthly basis. In the context of YouTube, it could refer to the consistent revenue generated from ad monetization, memberships, or other recurring sources. Combining automation with YouTube content creation can streamline processes, scale operations, and potentially generate passive income over time. However, it's essential to adhere to YouTube's policies and guidelines to ensure compliance and avoid penalties such as demonetization or account suspension.

The Entertainer Meets ChatGPT Dr. Ope Banwo, 2023-10-19 Encounter Between The Entertainer and ChatGPT Reveals Everything Entertainers Need To Know About Using Artificial Intelligence In The Entertainment Industry

The Palgrave Handbook of Malicious Use of AI and Psychological Security Evgeny Pashentsev, 2023-06-09 This handbook focuses on new threats to psychological security that are posed by the malicious use of AI and how it can be used to counteract such threats. Studies on the malicious use of AI through deepfakes, agenda setting, sentiment analysis, and affective computing, and so forth, provide a visual representation of the various forms and methods of malicious influence on the human psyche and, through this, on the political, economic, cultural processes, the activities of state and non-state institutions. Separate chapters examine the malicious use of AI in geopolitical confrontation, political campaigns, strategic deception, damage to corporate reputation, and activities of extremist and terrorist organizations. This is a unique volume that brings together a multidisciplinary range of established scholars and upcoming new researchers from 11 countries. This handbook is an invaluable resource for students, researchers, and professionals interested in this new and developing field of social practice and knowledge.
