The Future of the Novel Simon Okotie, 2025-03-04 Author and essayist Simon Okotie interprets the signposts evident through the history of the novel that point to the form's future We're used to the novel being declared dead dying or endangered Seemingly every few years a critic will read it the last rites yet the form remains more popular than ever with readers In *The Future of the Novel* author Simon Okotie presents a bold future for long form fiction and suggests its evolution is far from over Okotie begins by responding to and critiquing John Carruthers book *Scheherezade or The Future of the English Novel* published in 1927 as part of the *To day and To morrow* series the inspiration for our present day *FUTURES* He then cites others who have since meditated on the direction of the form Henry James D H Lawrence William Burroughs Ana's Nin Zadie Smith and China Miéville among others In doing so he also tells the story of the novel itself from the realism of the 18th and 19th centuries

through the early stirrings of modernism with its focus on the inner life right through to the abstraction and experimentation of 21st century postmodernism and beyond All of which informs Okotie s own future vision for the novel one that extends even further into the reaches of the subconscious and speculates on the uneasy role artificial intelligence will play in the coming decades The Future of The Novel is a rich and immersive portrait of an artform which despite constant claims to the contrary is more alive and exciting than ever
