Emerging Technologies for Combatting

Pandemics M. Rubaiyat Hossain Mondal, Utku Kose, V. B. Surya Prasath, Prajoy Podder, Subrato Bharati, Joarder

Kamruzzaman, 2022-11-25 The COVID-19 pandemic has significantly affected the healthcare sector across the globe. Artificial Intelligence (AI) and the Internet of Medical Things (IoMT) play important roles when dealing with emerging challenges. These technologies are being applied to problems involving the early detection of infections, fast contact tracing, decision-making models, risk profiling of cohorts, and remote treatment. Applying these technologies runs against challenges including interoperability, lack of unified structure for eHealth and data privacy, and security. Emerging Technologies for Combatting Pandemics: AI, IoMT, and Analytics examines multiple models and solutions for various settings, including individual, home, work, and society. The world's healthcare systems are battling the novel coronavirus, and government authorities, scientists, medical practitioners, and medical services are striving hard to surmount these challenges. This book focuses on the design and implementation of AI-based approaches in the proposed COVID-19 solutions that are enabled and supported by IoMT, sensor networks, cloud, and edge computing, robotics, and analytics. It covers technologies under the umbrella of AI that include data science, big data, machine learning, ML, semantic technologies, analytics, and cyber security. Highlights of the book include epidemic forecasting models, surveillance and tracking systems, IoMT and Internet of Healthcare Things-based integrated systems for COVID-19, social network analysis systems, radiological image-based diagnosis systems, computational intelligence methods. This reference work is beneficial for interdisciplinary students, researchers, and healthcare and

technology professionals who need to know how computational intelligence could be used for surveillance control prevention prediction diagnosis and potential treatment of the disease Liars Cass R. Sunstein, 2021 Worldwide people are circulating damaging lies and falsehoods through powerful social media platforms that reach billions They range from claims that COVID 19 is a hoax to the theory that vaccines cause autism In Liars Cass Sunstein argues that free societies must generally allow falsehoods and lies which cannot be excised from democratic debate At the same time governments should regulate specific kinds of falsehoods those that genuinely endanger health safety and the capacity of the public to govern itself Sunstein concludes that government and private institutions like Facebook and Twitter currently allow far too many lies including those that threaten public health and democracy Cumulated Index Medicus ,1992 *Ulrich's International Periodicals Directory* Carolyn Farquhar Ulrich, 2001 Energy Research Abstracts ,1994 Semiannual with semiannual and annual indexes References to all scientific and technical literature coming from DOE its laboratories energy centers and contractors Includes all works deriving from DOE other related government sponsored information and foreign nonnuclear information Arranged under 39 categories e g Biomedical sciences basic studies Biomedical sciences applied studies Health and safety and Fusion energy Entry gives bibliographical information and abstract Corporate author subject report number indexes
