Catholic Identity Balancing Reason Faith And Power:

Catholic Identity Michele Dillon, 1999-08-13 Michele Dillon investigates why pro change Catholics continue to remain actively involved with the Church *Our Lady of Emmitsburg, Visionary Culture, and Catholic Identity* Jill Krebs, 2015-12-30 This ethnography explores the community of believers in a series of Marian apparitions in rural Emmitsburg Maryland asking what it means to call oneself a Catholic and child of Our Lady in this context what it means to believe in an apparition and what it means to communicate with divine presence on earth Believers fashion themselves as devotees of Our Lady in several ways Through autobiography they look backward in time to see their lives as leading up to their participation in the prayer group or in some cases moving to Emmitsburg By observing and telling miracle stories they adopt an enchanted worldview in which the miraculous becomes everyday Through relationships with Our Lady their lives are enriched and even transformed When they negotiate institutional loyalty and individual autonomy they affirm their own authority and Catholic identity Finally through social media they expand their devotional networks in ways that shift authority structures and empower individuals Individuals engage beliefs practices and attitudes both arising from and resisting elements of modernity religious pluralism and religious decline empowerment and perceived disempowerment tradition and innovation and institutional loyalty and perceived disloyalty to reveal one way of understanding Catholic identity amidst the shifts and flows of modern change **Equality and Power in Schools** Anne Lodge, Kathleen Lynch, 2004-11-23 Based on a study of 12 schools over a two year period this book explores issues of equality and power both in the classroom and in the staffroom Through classroom observation interviews with pupils and staff focus groups and questionnaires the authors examine classroom practice grouping and streaming peer group relations and attitudes to power relationships both between pupils and teachers and amongst teachers themselves They also look particularly at the different experiences of pupils in single sex and co educational schools The authors findings offer an insight into the way schools operate in terms of social class gender religion and ethnicity and raise fundamental questions about the use and abuse of power in schools and how this affects the lives of pupils and staff This book will be of interest to those studying education sociology gender studies and women s studies and to policy makers and teachers in senior management roles **Catholics, Conflicts and Choices** Angela Coco, 2014-09-12 Many Catholics today are disenchanted with the Church s continuing distrust of women and laity But despite this widespread dissatisfaction traditional power relations have hardly changed over the last century Catholics Conflicts and Choices presents detailed interviews with lay people priests Sisters and Christian Brothers each discussing their personal struggles with church teachings and practices The conversations are selected to illustrate different experiences of power relations particularly different aspects of gender dynamics within the organisational structures of the Church The interviews are examined within a framework of feminist sociological and psychological theory Catholics Conflicts and Choices reveals how despite a long history of challenging official notions of authority and obedience and assumptions about intimate relationships

there is little potential for change if the established power relations of the Church are not confronted *Faith in Action* Richard L. Wood, 2002-09-15 Over the past fifteen years associations throughout the U S have organized citizens around issues of equality and social justice often through local churches But in contrast to President Bush's vision of faith based activism in which groups deliver social services to the needy these associations do something greater Drawing on institutions of faith they reshape public policies that neglect the disadvantaged To find out how this faith based form of community organizing succeeds Richard L Wood spent several years working with two local groups in Oakland California the faith based Pacific Institute for Community Organization and the race based Center for Third World Organizing Comparing their activist techniques and achievements Wood argues that the alternative cultures and strategies of these two groups give them radically different access to community ties and social capital Creative and insightful *Faith in Action* shows how community activism and religious organizations can help build a more just and democratic future for all Americans **Abortion and Catholicism in Britain** Sarah-Jane Page, Pam Lowe, 2024-04-20 This book details how British Catholic communities view abortion highlighting the diversity of positions which often contrast with the official line of Catholic Church doctrine The authors extensive qualitative investigation involving various Catholic constituents demonstrates the complex ways attitudes are formed Based on interviews with priests Catholic parishioners anti abortion activists and Catholics living in close proximity to activism this book takes a lived religion approach to argue that attitudes and approaches to abortion are nuanced and contextual with the Catholic concept of individual conscience playing a fundamental role in navigating abortion issues Ultimately this investigation helps to explore in much greater depth the increased liberalisation in attitudes among Catholics towards abortion at a time when Catholic activism opposing abortion is growing and therefore shines a light on the conflicts that are apparent at the heart of Catholic parishes This book will be of interest to scholars in Gender and Sexuality Studies Sociology Theology and Religious Studies *Handing on the Faith* Robert P. Imbelli, 2006 Volume 1 THE CHURCH IN THE 21st CENTURY SERIES A new venture of Herder Herder in cooperation with The Church in the 21st Century Center at Boston College www.bc.edu/church21 *Voices of the Faithful* William V. D'Antonio, Anthony James Pogorelc, Anthony J. Pogorelc, 2007 The most exciting development in Catholic life in the past decade has been the formation of Voice of the Faithful This remarkable group of devout active and loyal Catholics has emerged as the most forceful voice for church reform in the wake of the priestly abuse scandal This new book presents both the hard statistics about the group's membership and frank and appreciative analysis of the group's influence *American Catholics in Transition* William V. D'Antonio, Michele Dillon, Mary L. Gautier, 2013 *American Catholics in Transition* reports on five surveys carried out at six year intervals over a period of 25 years from 1987 to 2011 The surveys are national probability samples of American Catholics age 18 and older now including four generations of Catholics Over these twenty five years the authors have found significant changes in Catholics attitudes and behavior as well as many enduring trends in the explanation of Catholic identity Generational change

helps explain many of the differences. Many millennial Catholics continue to remain committed to and active in the Church but there are some interesting patterns of difference within this generation. Hispanic Catholics are more likely than their non-Hispanic peers to emphasize social justice issues such as immigration reform and concern for the poor and while Hispanic millennial women are the most committed to the Church, non-Hispanic millennial women are the least committed to Catholicism. In this fifth book in the series, the authors expand on the topics that were introduced in the first four editions. The authors are able to point to dramatic changes in and across generations and gender especially regarding Catholic identity, commitment, parish life, and church authority. William V. D. Antonio, Michele Dillon, and Mary L. Gautier provide timely information pertaining to Catholics' views regarding current pressing issues in the Church such as the priest shortage and alternative liturgical arrangements and same-sex marriage. The authors also provide the first full portrayal of how the growing numbers of Hispanic Catholics in the U.S. are changing the Church. *I Have Weathered Other Storms* TFP Committee on American Issues, 2002. *The Supreme Court's Federalism* Frank Goodman, 2001-03. In the last decade the Supreme Court has handed down a remarkable series of decisions invalidating congressional legislation in the name of federalism or states' rights. Most of these were decided by a razor-thin majority of five justices. The cases fall into four categories. First, in two cases the Court reaffirmed and expanded the principle of state sovereign immunity. In a second pair of cases, the Court held that state governments, other than their courts, cannot be commandeered by Congress to assist in the enforcement of federal law. Third, for the first time since the early New Deal, the Court but the familiar 5-4 margin invalidated a federal statute enacted pursuant to the interstate commerce clause. Finally, the Court adopted a new and extremely demanding standard of review for congressional action under Section 5 of the Fourteenth Amendment, which empowers Congress to enforce the amendment by appropriate legislation. The 13 articles in this volume of *The Annals* deal with the various aspects of the Supreme Court's federalist revival and the principles underlying it. The first three articles discuss these principles in comprehensive terms. Each of the next three articles focuses on a particular aspect of the federalism principle or its judicial enforcement. These articles are followed by a contribution with regard to Congress's ability to escape the constitutional limitations of federalism by means of conditional grants under the spending clause. The next three articles point up alternative themes, purposes, or agendas in the Court's federalism decisions. Another two contributions focus on the anti-commandeering issue but place that issue in a broader context. The final article illuminates from several perspectives the four-year-old federal habeas corpus statute, the Anti-Terrorism and Effective Death Penalty Act. The Supreme Court's recent decision in *Bush v. Gore*, issued shortly before this volume went to press, dramatically reverses the case and principles that are the subject of the articles in this volume. Perhaps the best justification for the Court's action is not legal but political. The majority justices, or some of them, may have looked down the road and seen a constitutional catastrophe in the making. Unfortunately, there is also a less benign explanation: one or more of the justices may have reached the conclusion that if the

presidential outcome were going to be determined by an act of judicial will it would be their will and not that of the Florida Supreme Court

D'Antonio, James Davidson, Dean Hoge, Mary L. Gautier, 2007-03-26 The Catholic Church has had a tumultuous recent history in the wake of the election of a new pope and sex abuse scandals and the views of Catholic lay people have not stood untouched What are the effects of these events upon Catholics beliefs How do beliefs of older and younger generations of Catholics differ Using key Gallup surveys from 1987 to 2005 this book reveals a rift between Catholics born before and after Vatican II and suggests that the future will find more Catholics making decisions about their own faith and fewer who are fervently committed to church life This discussion is vital to anyone concerned with American Catholicism and its future Contemporary Catholic Identities Brian Starks, 2005 **Review of Religious Research**, 2006
