Riggs, Shoshana Rosenberg, Heather Fraser, Nik Taylor, 2021-07-29 Queer Entanglements provides the first comprehensive account of the intersections of lesbian gay bisexual queer trans and non binary people's lives with the lives of animals Exploring diverse topics such as domestic violence grief following the loss of an animal veganism cruelty free makeup products Pride events and community activism the book offers a theoretical and empirical basis for understanding the contexts that bring together human and animal lives By using real world examples it provides a lively and engaging view of what it means to think about the connections between animal and human lives even when human experiences operate at the expense of animal wellbeing This critical intersectional and interdisciplinary perspective on human animal relations will be of interest to scholars and students in human animal studies psychology sociology social work and cultural and gender studies

midlife and older She questions what we've been told aging would be like and encourages us to instead ask ourselves what do we want it to be like and how can we get there The key is to be curious open minded and intentional about the ways we are becoming our future selves We have an opportunity to create new narratives of aging as a woman ones that value women at all stages of life not just youth and it starts with us Once the stereotypes that have held women back are broken down women can move past them and rather than feel helpless as the years add up they can discover and tap into just how much agency they have Not only will this book help to create a less ageist less sexist more inclusive future it will release our daughters and all young women from a similar future
