Catwalk Working With Models:

Catwalk Lee Widdows, Jo McGuinness, 1996 A practical step by step guide to presenting a fashion collection to the buyers press

The Aesthetic Economy of Fashion Joanne Entwistle, 2009-11-15 Fashion is bound up with promoting the new concerned with constantly changing aesthetics The favored styles or looks of a season arise out of the work of a vast range of different actors who collectively produce select distribute and promote the new ideals before moving on next season If fashion is defined in part by the incessant requirement to be new this requirement means aesthetic qualities are always in motion and therefore unstable How then are fashionable commodities stabilized long enough for them to be calculated i e selected distributed and sold by those critically placed inside the fashion system Since there are few studies that actually examine the work that goes on inside the world of fashion we know little about these processes Fashion and the Cultural Economy addresses this gap in our knowledge by examining how aesthetic products are defined distributed and valued It focuses attention on the work of some of the market agents in particular model agents or bookers and fashion buyers shaping the aesthetics inside their markets In analyzing their work Entwistle develops a theoretical framework for understanding the distinctive features of aesthetic marketplaces and the aesthetic calculations within them

Rising Stars Toni Shelton, 2005-06 COMMERCIAL ACTING OPPORTUNITIES There are two types of commercials which frequently cast models Non air commercials are those not intended for broadcast use such as non broadcast audience reaction commercials copy testing or client demos Photomatics are one specific type of client demo they use a still photographer and the images are converted to video using special techniques to give the feeling of movement as in ordinary film Non air commercials give new actor models a chance to see what it takes to produce a commercial and provide valuable experience to add to acting resumes The second type of commercial involves real movement and may have speaking or non speaking parts Models cast for this type of commercial may find themselves modeling clothes advertising a store selling a mattress buying a car opening a bank account eating an ice cream you name it Speaking parts usually require voice training Be advised having a regional accent will severely limit your speaking parts Voice training will be necessary if you are serious about your acting career A principal part is the position held by the featured actor in a commercial That actor is the representative of the product the consumer will focus on and the part may be either speaking or non speaking Extra parts which may be speaking or non speaking are held by people who are strategically placed to fill unwanted space in a commercial Being an extra is a terrific opportunity to learn the inside workings of commercial production without the stress of being a principal It allows you to observe what is required of the principal actors the creative process involved and the roles of the production team TRAINING Regardless of what country of market the commercials you wish to audition for are aimed at you must have proper training To learn more about the commercial acting business take some on camera commercial acting class You ll also learn techniques for psyching yourself up for auditions and overcoming intimidating directors Acting in T V commercials is lots of

fun It can also be very demanding doing take after take until it is exactly right Commercial acting can be a regular and lucrative source of income you might begin to aspire to higher things If you develop serious theatrical ambitions you would be well advised to undertake proper training at a reputable drama school It is rare to find a theatre professional who gives much credit for commercial acting experience It just isn't in the same league The transition between modeling and acting you face many obstacles The simple fact is that models are not taken as seriously as classically trained actors and as a result they must work even harder to gain respect Any model who wants to act is to immerse themselves into classes This is not a short term commitment of taking just one class you need many A cold reading class is beneficial because copy is often not available before an audition I also urge my models to take improvisation acting classes These teach you how to be free less inhibited and not afraid to do something silly Finally get a monologue under way and audition for theatre Models need to separate the two worlds of acting and modeling Use your composite for modeling and your headshot and resume for acting Before professional and come prepared to an audition This means to be on time know your lines wear the appropriate clothing listen take direction and be self confident If you treat acting like a business and treat it with the same enthusiasm and drive you do modeling success should surely follow NETWORKING Finally don't overlook one of the most important resources that an actor can have This business is about people and about Engaging with Fashion Federica Carlotto, Natalie
