Expressions of the Body Charlotte Baker, 2009 This book contributes to a growing corpus of writing on the body bringing new perspectives to this fascinating and topical subject Feminist psychoanalytic and queer readings among others have demonstrated the extent of the functions and roles fulfilled by the body as well as the number of critical perspectives it can serve However by and large African representations of the body have been overlooked This coherent volume brings together essays on the portrayal of the body in African art film literature photography and theatre The book includes thematically linked contributions which explore issues of power and representation and reflects current trends in the study of the body and more broadly within the field of African Studies
