*The Neo-Mandaic Dialect of Khorramshahr* Charles G. Häberl, 2009 Neo Mandaic is the only surviving dialect of Aramaic to be recognized as a direct descendant of any of the classical dialects of Late Antiquity The Mandaeans who speak it are adherents of a pre Islamic Gnostic sect the only such sect to survive to the present day As such Mandaic may be considered as both a living language of the modern Middle East and also the vehicle of one of the great religious traditions of that region along with Hebrew Arabic and Persian Unfortunately Neo Mandaic is severely endangered and all signs indicate that the current generation of speakers is likely to be the last As a description of an endangered language this work addresses one of the chief concerns of linguists in the 21st century namely the impending loss of the majority of the world's languages and the immense threat to both linguistic and cultural diversity that it represents This grammar is the first account of a previously undocumented dialect of Neo Mandaic and most thorough description of any Neo Mandaic dialect In addition to a description of its phonology inflectional paradigms and morphosyntax it includes a collection of ten texts transcribed and translated as well as a concise lexicon of the vocabulary found within these texts
