Catholic University As Promise And Project:

The Catholic University as Promise and Project Michael J. Buckley,1999-03-11 The remarkable development of the Catholic university in the United States has raised issues about its continued identity its promise and its academic constituents Michael J Buckley SJ explores these questions especially as they have been experienced in Jesuit history and contemporary commitments The fundamental proposition that grounds the Catholic university Buckley argues is that the academic and the religious are intrinsically related Academic inquiry encourages a process of questioning that leads naturally to issues of ultimate significance while the experience of faith is towards the understanding of itself and of its relationship to every other dimension of human life This mutual involvement requires a union between faith and culture that defines the purposes of Catholic higher education In their earliest and normative documents Jesuit universities have been encouraged to achieve this integration through the central role given to theology Buckley explores two commitments that implicate contemporary Catholic universities in controversy an insistence upon open free discussion and academic pluralism to the objections of some in the Church and an education in the promotion of justice to the objections of some in the academy Finally to strengthen philosophical and theological studies Buckley suggests both a philosophical grammar that would discover and study the assumptions and methods involved in the various forms of disciplined human inquiry and a set of theological arts founded upon the more general liberal arts Entering into the contemporary discussion about the Catholic university this book offers inspiring and thought provoking ideas for those engaged in Catholic higher education

Resources in Education ,2000-04 Heythrop Journal, 2004 **Jesuit Education 21** Martin R. Tripole, 2000 **Year-book of the Catholic University of America** Catholic University of America, 1893 Christianity and the Making of Irish Law David H. McIlroy, 2025-11-18 For almost two millennia the island of Ireland has continued to have an impact on European and English speaking Christianity and culture out of all proportion to its size and position This volume looks at key Irish figures beyond lawyers and judges whose ideas have impacted on the way law is conceived conceptualised and practised The work consists of four Parts each corresponding to a distinct historical phase During the Early Mediaeval Period Christian influence was visible both in Ireland's brehon legal system and in the treatises which Irish monks wrote on subjects such as the law of war and how to rule as a Christian prince In the post mediaeval period the Protestant Ascendancy required defenders of the new settlement whose ideas would have ramifications for the colonisation of the New World We also find Ireland producing thinkers of international stature such as Archbishop James Ussher Bishop George Berkeley and Edmund Burke who set a trend of Irish influence throughout the English speaking world The struggle for independence in the nineteenth and early twentieth centuries produced the towering figures of Daniel O Connell Edward Carson and Eamon de Valera as well as Patrick Pearse the lodestar of the Easter Rising in 1916 In the twentieth century great Irish men and women who influenced English speaking culture include C S Lewis James Joyce Richard O Sullivan KC and Herbert McCabe

They show the enduring importance of a commitment to reason and a desire for virtue against the backdrop of the conflicts both domestic and international which impacted Ireland With contributions drawn from Irish British and North American scholars and lawyers the diversity of international and methodological perspectives is a key strength of the volume The book will appeal to scholars lawyers and students interested in the history of ideas the interplay between religion and law and Ireland as a place of contestation experimentation and generation of new ideas Cumulated Index to the Books, 1906 A world list of books in the English language The Challenge and Promise of a Catholic University Theodore Martin Hesburgh, 1994 This is a position paper with contributions from a range of academics on the question of how a Catholic university can preserve its character while avoiding both secularisation and insular sectarianism Catalog of Copyright Entries. Dr. Walsh, Archbishop of The Catholic University as a Social Project Michael J. Dublin William Joseph Walsh (Abp. of Dublin),1886 Garanzini, James P. McCartin, 2026-02-02 A vision for Jesuit institutions for a just future rooted in faith and adaptable to change The mission of the Society of Jesus its gift to the Church its charism has been expressed for 450 years through its sustained commitment to the education of young people This mission which promotes character formation and academic excellence continues to this day in hundreds of Jesuit institutions worldwide at all levels of education This commitment to developing leaders for civic private and ecclesial institutions has required a continuous discernment process characterized by reflection and engaged in by the Society of Jesus s leadership and its many collaborators The Catholic University as a Social Project presents a collection of essays that reflect on an address given by Arturo Sosa SI the current superior general of the Society of Jesus In this address which opens the book Sosa advocates that Jesuit institutions meet the challenges of our times through the Ignatian practice of discernment a commitment to reflection innovation and openness to the new Presented after Sosa s address the book s contributions explore themes such as intergenerational collaboration intercultural dialogue and the enduring relevance of Jesuit spiritual principles in tackling contemporary challenges This volume highlights the tension between tradition and transformation calling on Jesuit institutions to approach the future with clear eyes on the world s problems inadequacies and injustices along with a clear sense of a responsibility to work toward a better world This book will interest senior leadership faculty administrators and trustees at Jesuit universities and colleges Readers eager to cultivate their own hope as they embrace the vocation of serving the common good will find in Sosa's address and the accompanying essays a source of wisdom and an invitation to generative reflection and action A Green and Permanent Land Randal S. Beeman, James A. Pritchard, 2001 Once patronized primarily by the counterculture and the health food establishment the organic food industry today is a multi billion dollar business driven by ever growing consumer demand for safe food and

greater public awareness of ecological issues Assumed by many to be a recent phenomenon that industry owes much to agricultural innovations that go back to the Dust Bowl era This book explores the roots and branches of alternative agricultural ideas in twentieth century America showing how ecological thought has challenged and changed agricultural theory practice and policy from the 1930s to the present It introduces us to the people and institutions who forged alternatives to industrialized agriculture through a deep concern for the enduring fertility of the soil a passionate commitment to human health and a strong advocacy of economic justice for farmers Randal Beeman and James Pritchard show that agricultural issues were central to the rise of the environmental movement in the United States As family farms failed during the Depression a new kind of agriculture was championed based on the holistic approach taught by the emerging science of ecology Ecology influenced the permanent agriculture movement that advocated such radical concepts as long term land use planning comprehensive soil conservation and organic farming Then in the 1970s sustainable agriculture combined many of these ideas with new concerns about misquided technology and an over consumptive culture to preach a more sensible approach to farming In chronicling the overlooked history of alternative agriculture A Green and Permanent Land records the significant contributions of individuals like Rex Tugwell Hugh Bennett Louis Bromfield Edward Faulkner Russell and Kate Lord Scott and Helen Nearing Robert Rodale Wes Jackson and groups like Friends of the Land and the Practical Farmers of Iowa And by demonstrating how agriculture also remains central to the public interest especially in the face of climatic crises genetically altered crops and questionable uses of pesticides this book puts these issues in historical perspective and offers readers considerable food for thought Management of the California State Water Project .2014 Report Belgian American Educational Foundation,1926 So that Every Child Can Read-- Jana Potter, Judy Blankenship, Laura Carlsmith, 1999 Book Review Index Dana Ferguson, 2001 **Eminent Victorians Lytton** Strachev, 1918
