Cats The Rise Of The Cat:

Cats Roger K. Tabor,1991 *Classical Cats* Donald W. Engels,2018-10-03 This is the definitive book on classical cats The cat has played a significant role in history from the earliest times Well known is its role in the religion and art of ancient Egypt no less than its association with witchcraft in the Middle Ages But when did the cat become a domestic companion and worker as well There has been much debate about the position of the cat in ancient Greece and Rome Artistic representations are sometimes ambiguous and its role as a mouse catcher seems often to have been carried out by weasels Yet other evidence clearly suggests that the cat was as important to Greeks and Romans as it is to many modern people This book is the first comprehensive survey of the evidence for cats in Greece and Rome and of their functions and representations in art Donald Engels draws on authors from Aesop to Aristotle on vase painting inscriptions and the plastic arts and on a thorough knowledge of zoology of the cat He also sets the ancient evidence in the wider context of the Egyptian period that preceded it as well as the views of the Church fathers who ushered antiquity into the Middle Ages *Cats* Roger Tabor,1991 This tie in with a BBC2 series in the autumn of 1991 tells the story of the domestic cat from its origins in Ancient Egypt to its fall from grace in medieval Europe and its rise again to become one of today s most popular pets Roger Tabor visited the ancient tombs and temples of Egypt exploring the early fertility cults of the cat goddess Bastet and made discoveries about the domestication of the cat Cat Sense John Bradshaw,2013-09-10 Based on cutting edge science this bestselling book on the inner lives of cats is for any who may wonder what their feline companions are really thinking The New York Times In Cat Sense renowned anthrozoologist John Bradshaw takes us further into the mind of the domestic cat than ever before using cutting edge scientific research to dispel lingering myths and explain the true nature of our feline friends Tracing the cat s evolution from lone predator to domesticated companion Bradshaw shows that although cats and humans have lived together for eight thousand years cats remain independent predatory and wary of contact with their own kind qualities that often clash with our modern lifestyles To live in harmony with our cats Bradshaw explains we first need to understand their inherited quirks including understanding their body language and managing both their natural hunting instincts and their relationships with other cats A must read for any cat lover Cat Sense offers humane penetrating insights about the domestic cat that challenge our most basic assumptions and promise to dramatically improve our pets lives and ours The Cat and the Human Imagination Katharine M.
