Cattle Kingdom Early Ranching In Alberta:

Cattle Kingdom Edward Brado, 2004 One of the most colourful chapters in the history of North American settlement began in the 1880s when the rich Alberta grasslands spreading east from the foothills of the Rockies became the magnet for cattle ranching Award winning Cattle Kingdom provides readers with all the colourful tales of raffish characters political intrigues and partnerships fortunes made and lost and the harsh realities of prairie winters The era also gave us the mythic figure of the cowboy still prominent in Alberta today Nowhere is the story of ranching more rich and varied than in Alberta There was an assortment of high rollers big money men from the east English lords and remittance men along with refugees from the American west and ordinary folk seeking a homestead and a new dream The newly formed North West Mounted Police was on hand as well Famous ranches were created during this period including the Cochrane the Oxley and the North West Cattle Company Bar U The cast of characters included John Ware the brave and foolhardy Major General Thomas Bland Strange who had plans for a ranch for retired British army types and the scrappy Pat Burns who parlayed a small slaughterhouse in Calgary into a giant meat packing and cattle empire By the time of the first Calgary Stampede in 1912 the cattle kingdom was on the wane More and more settlers arrived and began fencing and farming the once limitless grazing lands And then came the discovery of oil But during its brief and brilliant season in the sun early ranching in Alberta put an indelible stamp on the history and culture of the Canadian west Visionary Veterinarian - The Remarkable Exploits of Dr. <u>Duncan McNab McEachran</u> Sebastiaan Smit,2012 Cattle Kingdom Edward Brado, 1984 One of the most colourful chapters in the history of North American settlement began in the 1880s when the rich Alberta grasslands spreading east from the foothills of the Rockies became the magnet for cattle ranching Award winning Cattle Kingdom provides readers with all the colourful tales of raffish characters political intrigues and partnerships fortunes made and lost and the harsh realities of prairie winters The era also gave us the mythic figure of the cowboy still prominent in Alberta today Nowhere is the story of ranching more rich and varied than in Alberta There was an assortment of high rollers big money men from the east English lords and remittance men along with refugees from the American west and ordinary folk seeking a homestead and a new dream The newly formed North West Mounted Police was on hand as well Famous ranches were created during this period including the Cochrane the Oxley and the North West Cattle Company Bar U The cast of characters included John Ware the brave and foolhardy Major General Thomas Bland Strange who had plans for a ranch for retired British army types and the scrappy Pat Burns who parlayed a small slaughterhouse in Calgary into a giant meat packing and cattle empire By the time of the first Calgary Stampede in 1912 the cattle kingdom was on the wane More and more settlers arrived and began fencing and farming the once limitless grazing lands And then came the discovery of oil But during its brief and brilliant season in the sun early ranching in Alberta put an indelible stamp on the history and culture of the Canadian west Selected Papers on the History of Medicine and Healthcare (2014) William J. Pratt, Frank W. Stahnisch, Lesley

Bolton, 2019-10-24 This volume continues the Proceedings of the Calgary History of Medicine Days series which publishes the work of young and emerging researchers in the field hence providing a unique publishing format The annual Calgary History of Medicine Days Conference established in 1991 brings together undergraduate and early graduate students from across Canada Latin America the United States the United Kingdom and Europe to give paper and poster presentations on a wide variety of topics from the history of medicine and healthcare from a multiple perspectives The History of Medicine Days offers an annual platform for discussions and exchanges between participants regarding recent research findings methodological perspectives and work in progress descriptions of ongoing historiographical projects This book explores such topics as historical medical classics the history of medicine in Canada the effects of war on medicine and historical conceptions of blood and circulation Furthermore it includes the paper given by the conference s internationally renowned keynote speaker Dr Thomas Schlich Professor of History and History of Medicine at McGill University Quebec In addition it gathers together all the abstracts of the conference for documentation purposes and is well illustrated with images and diagrams pertaining to the history of medicine **North American Cattle-ranching Frontiers** Terry G. Jordan-Bychkov, 1993 The reinterpretation of how ranching evolved in the New World is broad including discussions of grazing and foraging and their relation to vegetation and climate that is cultural ecology cultural diffusion and local innovation Above all Jordan emphasizes place and region illustrating the great variety of ranching practices People on the North American Great Plains Geoff Cunfer, Bill Waiser, 2016-10-25 The near disappearance of the American bison in the nineteenth century is commonly understood to be the result of over hunting capitalist greed and all but genocidal military policy This interpretation remains seductive because of its simplicity there are villains and victims in this familiar cautionary tale of the American frontier But as this volume of groundbreaking scholarship shows the story of the bison s demise is actually quite nuanced Bison and People on the North American Great Plains brings together voices from several disciplines to offer new insights on the relationship between humans and animals that approached extinction The essays here transcend the border between the United States and Canada to provide a continental context Contributors include historians archaeologists anthropologists paleontologists and Native American perspectives This book explores the deep past and examines the latest knowledge on bison anatomy and physiology how bison responded to climate change especially drought and early bison hunters and pre contact trade It also focuses on the era of European contact in particular the arrival of the horse and some of the first known instances of over hunting By the nineteenth century bison reached a tipping point as a result of new tanning practices an early attempt at protective legislation and ventures to introducing cattle as a replacement stock The book concludes with a Lakota perspective featuring new ethnohistorical research Bison and People on the North American Great Plains is a major contribution to environmental history western history and the growing field of transnational history Thirsty Land into Springs of Water Brooke Kathleen Brassard, 2025-07-15 Looking at the example of The

Church of Jesus Christ of Latter day Saints Thirsty Land into Springs of Water answers questions about Canadian and religious identities immigration and integration Brooke Kathleen Brassard sheds light on the Latter day Saint experience in southern Alberta between 1887 and 1947 revealing how the Latter day Saints integrated into Canadian society while maintaining their peculiar identity through architecture business practices political participation gendered roles and family structures Drawing on family histories correspondence meeting minutes and oral histories Brassard explores how the Church negotiated the tension between integration and otherness The book demonstrates how Latter day Saints in southern Alberta embedded themselves in the social economic and political structures of Canada and how they adapted Mormonism to Canadian circumstances It draws on the concept of lived religion and historical methodologies to reveal the complications that occur in the process of negotiation for members of a minority religion in Canada Thirsty Land into Springs of Water ultimately illuminates the ways in which mainstream Canadian society forces newcomers to decide what they will adopt reject or adapt in order to belong Ignored but Not Forgotten Lucille H. Campey, 2014-09-10 In her third and final book in the English in Canada series Lucille Campey provides an overview of the great exodus from England to Canada which peaked in the early twentieth century Drawing on wide ranging documentary and statistical sources Campey traces this major population movement on a region by region basis Ghost Settlement on the Prairie Joseph V. Hickey, 1995 Four miles southeast of the village of Matfield Green in Chase County Kansas the heart of the Flint Hills lies the abandoned settlement of Thurman At the turn of the century Thurman was a prosperous farming and ranching settlement with fifty one households a post office two general stores a blacksmith shop five schools and a church Today only the ruins of Thurman remain Joseph Hickey uses Thurman to explore the settlement form of social organization which along with the village hamlet and small town was a dominant feature of nineteenth and early twentieth century American life He traces Thurman s birth in 1874 its shallow rises and falls and its demise in 1944 Akin to what William Least Heat Moon did for Chase County in PrairyErth Hicky provides a deep map for one post office community and consequently tells us a great deal about America's rural past Describing the shifting relationships between Thurmanites and their Matfield Green neighbors Hickey details how social forces set in motion by the American ideal of individualism and the machinations of capitalist entrepreneurs produced a Darwinian struggle between Thurman stock raisers and Flint Hills cattle barons that ultimately doomed Thurman Central to the story are the concept of ordinary entrepreneurship and the profoundly capitalist attitudes of the farmers who settled Thurman and thousands of other communities dotting the American landscape Hickey's account of Thurman's social organization and disintegration provides a new perspective on what happened when the cattle drives from Texas and the Southwest shifted in the 1880s from the Kansas cowtowns to the Flint Hills Moreover he punctures numerous myths about the Flint Hills including those that cattle dominated because the land is too rocky to farm or that Indians refused to farm because of traditional beliefs Like many other small rural communities Hickey argues Thurman during its seventy year

history was actually several different settlements A product of changing social conditions each one resulted from shifting memberships and boundaries that reflected the efforts of local entrepreneurs to use country schools churches and other forms of social capital to gain advantages over their competitors In the end Thurman succumbed to the impact of agribusiness which had the effect of transforming social capital from an asset into a liability Ultimately Hickey shows the settlement's fate echoed the decline of rural community throughout America Cowboys, Ranchers, and the Cattle Business S.
