## **Cedric Robinson:**

**Black Marxism** Cedric J. Robinson, 2005-10-12 In this ambitious work first published in 1983 Cedric Robinson demonstrates that efforts to understand black people's history of resistance solely through the prism of Marxist theory are incomplete and inaccurate Marxist analyses tend to presuppose European models of history and experience that downplay the significance of black people and black communities as agents of change and resistance Black radicalism must be linked to the traditions of Africa and the unique experiences of blacks on western continents Robinson argues and any analyses of African American history need to acknowledge this To illustrate his argument Robinson traces the emergence of Marxist ideology in Europe the resistance by blacks in historically oppressive environments and the influence of both of these traditions on such important twentieth century black radical thinkers as W E B Du Bois C L R James and Richard Wright

**Black Movements in America** Cedric J. Robinson, 2013-10-18 Cedric Robinson traces the emergence of Black political cultures in the United States from slave resistances in the 16th and 17th centuries to the civil rights movements of the present Drawing on the historical record he argues that Blacks have constructed both a culture of resistance and a culture of accommodation based on the radically different experiences of slaves and free Blacks *Cedric Robinson* Joshua

Myers, 2021-09-03 Cedric Robinson political theorist historian and activist was one of the greatest black radical thinkers of the twentieth century In this powerful work the first major book to tell his story Joshua Myers shows how Robinson's work interrogated the foundations of western political thought modern capitalism and changing meanings of race Tracing the course of Robinson's journey from his early days as an agitator in the 1960s to his publication of such seminal works as *Black Marxism* Myers frames Robinson's mission as aiming to understand and practice opposition to the terms of order In so doing Robinson excavated the Black Radical tradition as a form of resistance that imagined that life on wholly different terms was possible In the era of Black Lives Matter that resistance is as necessary as ever and Robinson's contribution only gains in importance This book is essential reading for anyone wanting to learn more about it *Cedric J. Robinson* Cedric J.

Robinson, 2019 A collection of essays by the influential founder of the black radical tradition **The Sage Handbook of**

**Decolonial Theory** Jairo I. Fúnez-Flores, Ana Carolina Díaz Beltrán, Sabelo J. Ndlovu-Gatsheni, Sandeep Bakshi, Augustin Lao-Montes, Flavia Rios, 2025-07-25 The Sage Handbook of Decolonial Theory is a groundbreaking transdisciplinary resource that expands the epistemological and geographical horizons of decolonial thought This handbook prioritizes the Global South fostering South North and South South inter epistemic dialogues and situating decolonial thought in sites of struggle It builds on decolonial thought and praxis from Latin America and the Caribbean Africa Asia and Palestine among other regions and countries Addressing the erasure of knowledge production from the Global South in dominant academic spaces this handbook brings together decolonial scholars and activist intellectuals from the Global South and engages with politically committed scholars in the Global North It emphasizes the geopolitics and ethics of knowledge production and the importance

of situating one's work in historically excluded regions and communities Organized into five parts the handbook includes conceptual essays and empirical studies on decolonial thought and praxis It covers a range of topics from decoloniality geopolitics and transdisciplinarity to decolonial feminisms gender and sexuality studies and racial capitalism The chapters convey a sense of urgency and a committed political voice demonstrating how decolonial theory can interrogate and intervene in the modern colonial racial capitalist heteropatriarchal world The Sage Handbook of Decolonial Theory is not just for academics it is written for anyone interested in radical thought and praxis It recognizes decolonial theory as a plural and dynamic field concerned with power hierarchies historiography and epistemological critiques of Eurocentrism Ultimately it teaches us how to think with and act alongside struggles for liberation Part I Key Debates in Decolonial Theory Part II Geopolitics and Geographies Part III Transdisciplinarity Part IV Feminisms Genders Sexualities Part V Racial Capitalism

*The Terms of Order* Cedric J. Robinson, 2016-03-09 Do we live in basically orderly societies that occasionally erupt into violent conflict or do we fail to perceive the constancy of violence and disorder in our societies In this classic book originally published in 1980 Cedric J Robinson contends that our perception of political order is an illusion maintained in part by Western political and social theorists who depend on the idea of leadership as a basis for describing and prescribing social order Using a variety of critical approaches in his analysis Robinson synthesizes elements of psychoanalysis structuralism Marxism classical and neoclassical political philosophy and cultural anthropology in order to argue that Western thought on leadership is mythological rather than rational He then presents examples of historically developed stateless societies with social organizations that suggest conceptual alternatives to the ways political order has been conceived in the West Examining Western thought from the vantage point of a people only marginally integrated into Western institutions and intellectual traditions Robinson's perspective radically critiques fundamental ideas of leadership and order An Anthropology of Marxism Cedric J. Robinson, 2019-01-18 An Anthropology of Marxism offers Cedric Robinson's analysis of the history of communalism that has been claimed by Marx and Marxists Suggesting that the socialist ideal was embedded both in Western and non Western civilizations and cultures long before the opening of the modern era and did not begin with or depend on the existence of capitalism Robinson interrogates the social cultural institutional and historical materials that were the seedbeds for communal modes of living and reimagining society Ultimately it pushes back against Marx's vision of a better society as rooted in a Eurocentric society and cut off from its own precursors Accompanied by a new foreword by H L T Quan and a preface by Avery Gordon this invaluable text reimagines the communal ideal from a broader perspective that transcends modernity industrialization and capitalism Hierarchies at Work Karen Engle, Neville Hoad, 2025-06-10 This book challenges dominant understandings of both economic inequality and the future of work Leading scholars in law social sciences and the humanities consider the production and reproduction of global hierarchies by revisiting and deploying three critical approaches that emerged in the late twentieth century racial capitalism world systems theory and critical legal

distributional analysis They demonstrate that these methods especially when brought together offer new insights into the forces that entrench the asymmetries of power and wealth that are too often shorthand as inequality They also uncover elisions and erasures of the past and present in prevailing technological determinist narratives about the future of work Hierarchies at Work features powerful grounded studies of the dynamics of work and livelihood in sites ranging from garment factories in Jordan and palm oil fields in Colombia to dairy farms in the United States These studies underscore the necessity of thinking about the future of work and livelihoods through their racialized past and present and recognizing the systemic role of law in unequal distribution Highlighting alternative imaginaries that contest systems of domination and subordination this timely book offers resources to spur more just futures across local and global levels **Black Marxism** Cedric J. Robinson, 2020-12 In this ambitious work first published in 1983 Cedric Robinson demonstrates that efforts to understand Black people's history of resistance solely through the prism of Marxist theory are incomplete and inaccurate Marxist analyses tend to presuppose European models of history and experience that downplay the significance of Black people and Black communities as agents of change and resistance Black radicalism Robinson argues must be linked to the traditions of Africa and the unique experiences of Blacks on western continents and any analyses of African American history need to acknowledge this To illustrate his argument Robinson traces the emergence of Marxist ideology in Europe the resistance by Blacks in historically oppressive environments and the influence of both of these traditions on such important twentieth century Black radical thinkers as W E B Du Bois C L R James and Richard Wright This revised and updated third edition includes a new preface by Tiffany Willoughby Herard and a new foreword by Robin D G Kelley *Sandman* Cedric Robinson, 2009 **The New Racial Regime** Alana Lentin, 2025-05-20 Extraordinary The New Racial Regime works from an archival foundation of Black and Indigenous liberationist and anti colonialist thinkers honing analytical tools that make sense of the ongoing racial reconstructionist moment Dylan Rodríguez author of *White Reconstruction* Accessible rigorous and unequivocal The New Racial Regime is the principled treatise we sorely need Charisse Burden-Stelly author of *Black Scare Red Scare* In the words of Robin D G Kelley anti-wokeness is the perfect example of the functioning of the racial regime Taking the reader beyond the distracting framings of culture wars and moral panics Alana Lentin shows how the attacks on Black Indigenous and anticolonial thought and praxis reveal the processes through which racial colonial rule is ideologically resecured The often chaotic and contradictory restitching of the racial regime is traced through the attacks on Critical Race Theory the whitelash against the teaching of histories of slavery and colonialism the counterinsurgent capture and institutionalisation of anti-racism Indigeneity and decoloniality in the interests of Zionism settler colonialism and imperialism and the ways that the state mandated war on antisemitism reforms white supremacy in a time of genocide While the racial regime undergoes constant recalibration its inherent instability is the consequence of continual resistance from below Maintaining and deepening that resistance is vital at a time of rapidly mounting fascism Alana Lentin is the author of *Why*

Race Still Matters      **Forgeries of Memory and Meaning** Cedric J. Robinson, 2012-09-01 Cedric J Robinson offers a new understanding of race in America through his analysis of theater and film of the early twentieth century He argues that economic political and cultural forces present in the eras of silent film and the early talkies firmly entrenched limited representations of African Americans Robinson grounds his study in contexts that illuminate the parallel growth of racial beliefs and capitalism beginning with Shakespearean England and the development of international trade He demonstrates how the needs of American commerce determined the construction of successive racial regimes that were publicized in the theater and in motion pictures particularly through plantation and jungle films In addition to providing new depth and complexity to the history of black representation Robinson examines black resistance to these practices Whereas D W Griffith appropriated black minstrelsy and romanticized a national myth of origins Robinson argues that Oscar Micheaux transcended uplift films to create explicitly political critiques of the American national myth Robinson's analysis marks a new way of approaching the intellectual political and media racism present in the beginnings of American narrative cinema      *Resisting Racial Capitalism* Ida Danewid, 2023-11-30 Excavates a global archive of refusal and ungovernability which challenges the statist political imagination of our time      *Cedric Robinson and the Philosophy of Black Resistance* Darryl C.
