Celestial Bodies Poems:

Celestial Bodies Sidney Wade, 2002 **Celestial Bodies** Meghan Palko, 2012 A celestial body according to Merriam Webster is an aggregation of matter in the universe that constitutes a unit for astronomical study More specifically it is a planet nebula star or some such natural heavenly entity Celestial Bodies is a collection of poems dealing with these bodies The human body and its celestial nature is a recurring aspect of my constellation of poems whether literal or figurative It is composed of mostly lyric poems from a first or second person point of view Though actual astronomical fixtures and images appear throughout many of the poems they only function as parentheses to the larger context of each poem Many of them are influenced by natural setting though the emotion or pursuit within the poem itself exists in a larger context Lyric poetry which originated in Greece around the 7th century B C was championed by Sappho and was originally intended for accompaniment on the lyre As an aristocrat and scholar of poetry Sappho wrote emotional I centered poems about the speaker s personal often erotic reflections and desires which was contrary to predominant poetic trends of the time such as Homer s long winded epics Since then many poets have slid easily into lyric form writing subjective personal poems with universal overarching themes In that vein thematic content doesn t necessarily provide the primary sense of cohesion in this collection Instead an adherence to lyrical style a loyalty to the free verse tradition and the emotional nature of the poems themselves unify the collection as a whole In the lyric tradition they often serve as a response to or reflection of a specific occasion or experience sometimes with a direct conversational tone and other times in a loftier more emotional sense Thematically however the poems in Celestial Bodies occasionally deal with the speaker s rumination on a loss or unmet desire The object of the speaker s affection or anger can be interpreted as various people lover father mother God and sometimes the line between one poem and another in terms of addressee is intentionally unclear In addition the yearning poems are often offset by those communicating indifference irreverence or ennui The speaker though not usually a direct manifestation of myself is occasionally informed by my own hang ups emotions or experiences though many are vicarious In terms of form my poems typically veer away from the contemporary experimental lyric and more toward grounded language and concepts Current experimental poetic trends have only informed the way I write in the sense that I am aware of them I ve delved into reading some of it and occasionally I ll bear those trends in mind when I m writing my own words and seeking to expand my perceptions and descriptions However my aesthetic choices do not intentionally conform to specific period practices In terms of personal influence writers such as Shara McCallum Keetje Kuipers Natasha Trethewey Alicia Ostriker Anthony Abbott Terrance Hayes Anna Journey and Li Young Lee among others have strongly informed the way I write sometimes thematically and sometimes in form While Trethewey writes poems that often adhere to traditional forms the poems content especially that which relates to etiquette and the female body provides a solid backdrop for my own like minded messages Meanwhile the work of Kuipers and Abbott exists within a pervading sense of loss while relying on natural

surroundings and images Journey's sexual thematic content and Hayes's conversational sense of irreverence and ennui ring true in some of my own poems While some of these authors do veer into narrative poetry they also successfully communicate on a lyric level and much of my work parallels that which they thematically expose and dissect Many of the poems within this collection are based not on story alone but on emotion and the speaker's personal struggle with various attitudes and challenges As a result the lyric seems appropriate for capturing these emotion based snapshots and communicating them most effectively to the reader As Sappho illustrated with her brief passion infused poems a solid narrative structure isn't always necessary for a successful poem however the larger context of a collection as a whole can instead serve as the foundation Celestial Bodies operates in the same spirit Although they are only breath words which I command are immortal Sappho Heavenly Light, Celestial Bodies, & Us Audrey Yeardley, 2010-02-16 Deep in the heart of the Trossachs countryside in Scotland lies the village of Aberfoyle to the south east of the village is a hill called Doon Hill Legend has it that this is the home of the Sidhe pronounced shee or Faery Folk It is said that in 1692 the minister of the parish Reverend Robert Kirk was spirited away by the Faery Folk as a punishment for revealing their secrets Meet Hamish his granny and other characters inside this book They are gnomes guardians of the oak trees Their homeland the woody knoll called Doon Hill Their duty to take care of sick animals and to protect the oak woodlands Their biggest enemy owls Their greatest delight to sing and dance celebrating the forest gods Their biggest hate humans who call them faeries blame them for troubles and show them no respect The Poetry of Astronomy Richard Anthony Proctor, 1881 Celestial Bodies Rebecca Kaur, 2023-05-10 Celestial Bodies is a collection of poetry and prose that celebrates the mystics of life the star dust between atoms and the divine feminine Celestial Bodies delves deep into imagery and questions that have been pondered for a millenia and gives answers with a lightness of being POETRY OF ASTRONOMY RICHARD A. PROCTOR, 2018 *The Poetry of Astronomy* Proctor, 1882 *Heavenly Bodies & Human Things* Regina Gurung, 2019-05-20 Heavenly Bodies and Human Things is a collection of poems that delve into living on the dark side Unapologetically exploring the calm and chaos of the night echoing the traumas of sexual assault unrequited love hope for an ex lover and a quest for home in a foreign land the poems echo the intricacies of human emotions with brutal honesty All Celestial Bodies Rise in the East Amy Menon Marleau, 2008-09 **Heavenly Bodies** Oliver Jenkins, 1928 Heavenly Bodies Cynthia Huntington, 2012-01-19 National Book Award Finalist 2012 In this blistering collection of lyric poems Cynthia Huntington gives an intimate view of the sexual revolution and rebellion in a time before the rise of feminism Heavenly Bodies is a testament to the duality of sex the twin seductiveness and horror of drug addiction and the social political and personal dramas of America in the 1960s From the sweetness of purloined blackberries to the bitter taste of pills the ginger perfume of the Hawaiian Islands to the scream of the winter wind Huntington's fearless and candid poems offer a feast for the senses that is at once mystical and earthy cynical and surreal Echoing throughout are some of the most famous and infamous voices of the times Joan Baez and Charles

Manson Frank Zappa and Betty Friedan Jinns and aliens beckon while cities burn and revolutionaries thunder for change At the center is the semiautobiographical Suzy Creamcheese sensual and rebellious both almighty and powerless in her sexuality Achingly tender yet brutally honest Heavenly Bodies is an unflinching reflection on the most personal of physical and emotional journeys Univeristy Press Books for Public and Secondary Schools 2013 edition Finalist for the National Book Award in Poetry 2012 **The Poetry of Astronomy; a Series of Familiar Essays on the Heavenly Bodies** Richard A.
