Investigating the Impact of AI on Ethics and Spirituality

Chakraborty, Swati,2023-10-04 Artificial intelligence AI is beginning to appear in everything from writing social media and business to wartime or intelligence strategy With so many applications in our everyday lives and in the systems that run them many are demanding that ethical implications are considered before any one application of AI goes too far and causes

irreparable damage to the personal data or operations of individuals governments and organizations For instance AI that is fed data sets that are influenced by human data collection method biases may be perpetuating societal biases with implicit bias that can create serious consequences Applications of AI with implicit bias on recidivism prediction models as well as medical algorithms have shown biases against certain racial or ethnic groups leading to actual discrimination in treatment by the legal system and the medical systems Regulatory groups may identify the bias in AI but not the source of the bias making it difficult to determine who to hold accountable Lack of dataset and programming transparency can be problematic when AI systems are used to make significant decisions and as AI systems become more advanced questions arise regarding responsibility for the results of their implementation and the regulation thereof Research on how these applications of AI are affecting interpersonal and societal relationships is important for informing much needed regulatory policies Investigating the Impact of AI on Ethics and Spirituality focuses on the spiritual implications of AI and its increasing presence in society As AI technology advances it raises fundamental questions about our spiritual relationship with technology This study emphasizes the need to examine the ethical considerations of AI through a spiritual lens and to consider how spiritual principles can inform its development and use This book covers topics such as data collection ethical issues and AI and is ideal for educators teacher trainees policymakers academicians researchers curriculum developers higher level students social activists and government officials
