Heroic Girls as Figures of Resistance and Futurity in Popular Culture Simon Bacon, 2024-04-09 *Heroic Girls* looks at the recent proliferation of young girl heroes in many recent mainstream films and books. These contemporary final girls do not just survive but rather suggest that in doing so they have fundamentally changed something about themselves and/or the world around them, seeing them become the First Girls of this altered reality. The collection brings together a wide range of perspectives and cultural viewpoints that describe many recent narratives that explore the idea of a Final Girl and her after-story. The essays are divided into four sections, beginning with more theoretical approaches, cross-cultural examples, the ways in which fictional narratives bear strong relation to real-world circumstances, examples that more strongly depict themes of resistance, survival, and individual agency, and finally those that describe something more fundamental and transformative. Films and television shows covered in the collection include *The Girl with All the Gifts*, *The Witcher*, *The Hunger Games*, *Star Wars*, *The Fear Street*, and *Pan's Labyrinth*. This book will be of interest to researchers and students of film studies, gender studies, and media studies.

Teen Film Catherine Driscoll, 2011-06-01 What makes a film a teen film? And why, when it represents such powerful and enduring ideas about youth and adolescence, is teen film usually viewed as culturally insignificant? Teen film is usually discussed as a representation of the changing American teenager, highlighting the institutions of high school and the nuclear family and experiments in sexual development and identity formation. But not every film featuring these components is a teen film, and not every teen film is American. Arguing that teen film is always a story about becoming a citizen and a subject, *Teen Film* presents a new history of the genre, surveys the existing body of scholarship, and introduces key critical tools for discussing teen film. Surveying a wide range of films, including *The Wild One*, *Heathers*, *Akira*, and *Donnie Darko*, the book's central focus is on what kind of adolescence teen film represents and on teen film's capacity to produce new and influential images of adolescence.
