Community Empowerment, Sustainable Cities, and Transformative Economies Taha Chaiechi, Jacob Wood, 2022-01-12. This edited volume presents the conference papers from the 1st International Conference on Business Economics Management and Sustainability (BEMAS) organized by the Centre for International Trade and Business in Asia (CITBA) at James Cook University. This book argues that the orthodox methods of external risks, climate change adaptation plans, and sustainable economic growth in cities are no longer adequate. These methods so far have not only ignored the ongoing structural changes associated with economic development but also failed to account for evolving industries, composition, and the emergence of new comparative advantages and skills. Specifically, this book looks at the vulnerable communities and exposed areas, particularly in urban areas that tend to experience higher susceptibility to external risks such as climate change, natural disasters, and public health emergencies. These have been largely ignored in incremental adaptation plans. Vulnerable communities and areas not only require different adaptive responses to climate risk but also possess unlocked adaptive capacity that can motivate different patterns of sustainable development to achieve the goals of the 2030 Agenda. It is essential, therefore, to view transformative growth and fundamental reorientation of economic resources as integral parts of the solution. Social disorganization and vulnerability are other undesired outcomes of the unpredictable and widespread external economic shocks. This is due to a sudden and tough competition between members of society to acquire precious resources, most of which may be depleted during unprecedented events such as natural disasters or pandemics, resulting in an even more chaotic and disorganized condition.

journalism HowExpert publishes quick how to guides by everyday experts **Digital Nomads** Rachael A. Woldoff, Robert C. Litchfield, 2020-12-01 A small but growing group of today's knowledge workers actively seek a lifestyle of freedom using technology to perform their jobs traveling far and wide and moving as often as they like. These digital nomads have left their local coffee shops behind and now proudly post their office of the day photos from exotic locales, but what do their lives really look like? In *Digital Nomads*, Rachael Woldoff and Robert Litchfield take readers into an expatriate digital nomad community in Bali, Indonesia, to better understand this growing demographic of typically Millennial workers. Through dozens of interviews and several stints living in a digital nomad hub, Woldoff and Litchfield present new answers to classic questions about community, creativity, and work. They further show why digital nomads leave their conventional lives behind, arguing that creative class and Millennial workers, though successful, often feel that their world-class cities and desirable jobs are anything but paradise. They first follow their transitions into freelancing, entrepreneurship, and remote work, then explain how digital nomads create a fluid but intimate community abroad in the company of like-minded others. Ultimately, Woldoff and Litchfield provide insight into digital nomads' efforts to live and work in ways that balance freedom, community, and creative fulfillment in the digital age. A sympathetic yet critical take on this emerging group of workers, *Digital Nomads* provides a revealing take on the changing nature of work and the problems of the new economy.
