year's work from home mandates for many workers around the world due to the coronavirus has pushed many employers to embrace and trust remote work. Technology has already boosted the phenomenal growth of home-based employment in recent years and continues to do so. Remote jobs are popular for a good reason. They save you commute time and allow you to focus on completing your work productively and successfully and they typically provide employers significant cost savings as well. You have the flexibility to choose career opportunities that do not require you to commit long hours inside an office environment. Experience all that a more flexible position can offer when you look to the guidance found in this remote employment roadmap. If you land home office work, comfortable work clothing or even PJs may be your wardrobe of the future. Great Pajama Jobs will help you get on track to finding the best remote job for you.

Higher Education, Place, and Career Development Rosie Alexander, 2024-11-21. Drawing connections between the findings of a research project following young graduates from the Scottish islands of Orkney and Shetland, current international evidence and theoretical literature, this book argues that understanding rural and island student transitions can expose the wider dynamics of place and mobility at play during student and early career experiences. Highlighting the importance of a career perspective, Rosie Alexander encourages readers to consider how career pathways develop across time and across transition points, unsettling the notion of a straightforward transition through university into the workplace. The book uncovers how student trajectories are developed through interweaving dynamics of relationships, place and career routes and unpacks the implications for policymakers and practitioners. It contends that a much greater spatial awareness is necessary to understand and support the educational and career pathways of higher education students. This is a crucial read for higher education researchers, policymakers and students interested in rurality as well as access to and transition from higher education.
