*How to Land a Top-Paying Bloggers Job* Brian Gordon, 2012-04-01 For the first time a book exists that compiles all the information candidates need to apply for their first Bloggers job or to apply for a better job What you will find especially helpful are the worksheets It is so much easier to write about a work experience using these outlines It ensures that the narrative will follow a logical structure and reminds you not to leave out the most important points With this book you will be able to revise your application into a much stronger document be much better prepared and a step ahead for the next opportunity The book comes filled with useful cheat sheets It helps you get your career organized in a tidy presentable fashion It also will inspire you to produce some attention grabbing cover letters that convey your skills persuasively and attractively in your application packets After studying it too you will be prepared for interviews or you will be after you conducted the practice sessions where someone sits and asks you potential questions It makes you think on your feet This book makes a world of difference in helping you stay away from vague and long winded answers and you will be finally able to connect with prospective employers including the one that will actually hire you This book successfully challenges conventional job search wisdom and doesn't load you with useful but obvious suggestions don't forget to wear a nice suit to your interview for example Instead it deliberately challenges conventional job search wisdom and in so doing offers radical but inspired suggestions for success Think that companies approach hiring with common sense logic and good business acumen and consistency Think that the most qualified candidate gets the job Think again Time and again it is proven that finding a job is a highly subjective business filled with innumerable variables The triumphant jobseeker is the one who not only recognizes these inconsistencies and but also
