The Poets and Writers Guide to Publicity and Promotion , *Producing and Directing the Short Film and Video* David K. Irving, Peter W. Rea, 2013-03-20 *Producing and Directing the Short Film and Video* is the definitive book on the subject for beginning filmmakers and students. The book clearly illustrates all of the steps involved in preproduction, production, postproduction, and distribution. Its unique two-fold approach looks at filmmaking from the perspectives of both producer and director and explains how their separate energies must combine to create a successful short film or video from script to final product. This guide offers extensive examples from award-winning shorts and includes insightful quotes from the filmmakers themselves describing the problems they encountered and how they solved them. The companion website contains useful forms and information on grants and financing, sources, distributors, film and video festivals, film schools, internet sources for short works, and professional associations.

*Reframing Common Discourse* Bryant Griffith, 2010-01-01 We live immersed in what appears to be a paradox between coherence and complexity. It is the gap between the modern presuppositions we largely live by and the emerging presuppositions we are testing which makes this seem chaotic. It is the pull of the individual and the collective and their multi-layered discourses. Your role as a teacher as the one who crafts the magic of knowing is to be the auteur, the author, the director, the conductor who understands where the students are situated and inspires them to levels of understanding where they become the experts. You need to be the listener and the one to guide constructively the path which knits emerging personal meaning with understanding and shared knowledge. The outcome will be a text which you have never read, a piece of music you have never heard, and a portrait you have never seen. This is the collective voice of common discourse and it is limitless. The groundwork for a common discourse I suggest lies in as if making meaning of a series of multiple possibilities. Each of us has been brought up in a society with a set of relative presuppositions about the way things work and what things mean. We can acknowledge different voices by thinking of them as a series of small cautionary tales related to us and by us about the way things might be.
