**Behold the Leviathan** Saurabh Mukherjea, 2024-10-15 In defiance of the stereotypes trotted out by yesterday's pundits modern India's rise is both unusual and unexpected It is unusual because some of the sharpest economic improvements are being observed in those sections of Indian society which were thought to be the most disadvantaged women oppressed castes and rural India It is unexpected because of the widespread view Until a couple of years ago India's democratic construct was inferior to China's single party state In Behold the Leviathan The Unusual Rise of Modern India Saurabh Mukherjea and Nandita Rajhansa provide a gripping picture of how 1.5 billion Indians are combining to spectacular effect to create a range of social and economic outcomes which have no precedent in any emerging economy For example India now has as many chess grandmasters as the United States and the expertise of its scientists has guided India's space modules to the dark side of the moon a feat no other country has achieved In this zeitgeist defining book the authors have also explored through pathbreaking research why the vast majority of India's companies are struggling to grow their profits even as a small minority of these companies have gone on to build globe girdling franchises worth tens of billions of dollars Written over two years during which the authors crisscrossed India hundreds of times and interviewed over fifty of the country's leading thinkers in business policymaking media and academia Behold the Leviathan has been hailed by the
