Navigating The Digital Shift: Implementation Strategies for Blended and Online Learning John Bailey, Carri Schneider, Tom Vander Ark, 2013-10-09 Our nation's schools stand at an important inflection point in the history of education. Taken together, the implementation of common college and career standards, the shift to next generation assessments, the availability of affordable devices, and the growing number of high quality digital instructional tools create an unprecedented opportunity to fundamentally shift the education system to personalize learning around the individual needs of every student. Digital Learning Now (DLN), a national initiative under the Foundation for Excellence in Education (ExcellinEd) in association with Getting Smart, brings Navigating the Digital Shift: Implementation Strategies for Blended and Online Learning to readers interested in exploring the implementation challenges at the intersection of these shifts. Co-authored by John Bailey, Carri Schneider, and Tom Vander Ark, Navigating the Digital Shift offers updated versions of the eight papers originally released in the DLN Smart Series, including contributions from 11 additional co-authors representing leading organizations such as Public Impact, the International Association for K-12 Online Learning (iNACOL), and The Learning Accelerator. Topics include blended learning implementation, teaching conditions, and careers competency-based learning, student data, online learning myths, and student-based funding. Jeb Bush, Governor of Florida from 1999-2007 and Chairman of ExcellinEd, contends that the book provides policymakers and education leaders the tools they need to use digital learning as a catalyst for improved student achievement. AASA 2013 Superintendent of the Year, Dr. Mark Edwards, believes the collection provides meaningful practical and poignant advice as well as commentary regarding the move to college and career-ready standards associated with the shift to personal online learning and digital resources. Rhode Island's Commissioner of Elementary and Secondary Education, Deborah Gist, describes the book as an invaluable resource that will help educators reimagine what our schools can look like and what our students can accomplish. Business Advantage: Advanced Teacher's Book Jonathan Birkin, 2012-09-06 An innovative new multi-level course for the university and in-company sector, Business Advantage is the course for tomorrow's business leaders. Based on a unique syllabus that combines current business theory, business in practice, and business skills, all presented using authentic expert input, the course contains specific business-related outcomes that make the material highly relevant and engaging. The Business Advantage: Advanced level books include input from leading institutions and organisations such as Alibaba, Dyson, Piaggio, and The Cambridge Judge Business School. The Teacher's Book comes with photocopiable activities, progress tests, and worksheets for the DVD which accompanies the Student's Book. **Software Engineering and Advanced Applications** Davide Taibi, Darja Smite, 2025-09-09 This three-volume set constitutes the refereed proceedings of the 51st Euromicro Conference on Software Engineering and Advanced Applications (SEAA 2025) held in Salerno, Italy, during September 10-12, 2025. The 62 full papers were carefully reviewed and selected from 177 submissions. These papers were organized in the following topical sections: Part I: Data and AI-Driven Engineering; Cyber

Physical Systems Model Driven Engineering and Modeling Languages Part II Practical Aspects of Software Engineering  
 Systematic Literature Reviews and Mapping Studies in Software Engineering Part III Software Management Measurement

 Alexandrou, Sue Swaffield, 2016-05-06 Interest in and knowledge of leadership and learning separately and together is an  
 international and continuing phenomenon This book adds to a somewhat under researched aspect of the field It focuses both  
 on a particular form of leadership teacher leadership and on a particular form of learning professional development It  
 considers the connection between teacher leadership and professional development and the first chapter relates this  
 connection to a Leadership for Learning conceptual framework developed through an international three year project The  
 book s chapters explore teacher leadership and professional development from a number of perspectives giving rise to three  
 points of particular significance Firstly the chapters show that either by accident or design there is a growing cadre of  
 teacher leaders emerging from a multitude of professional development activities and initiatives Secondly a number of new  
 conceptual frameworks are put forward alongside the adaption and development of extant ones that add to the ever  
 increasing theorisation of educational leadership and professional development literature Thirdly the chapters provide  
 evidence of the connections between leadership and learning as conceptualised in the Leadership for Learning framework
