Soonkwan Hong, Stefka Hristova, Jennifer Daryl Slack, 2020-11-24. **Algorithmic Culture: How Big Data and Artificial Intelligence are Transforming Everyday Life** explores the complex ways in which algorithms and big data, or algorithmic culture, are simultaneously reshaping everyday culture while perpetuating inequality and intersectional discrimination. Contributors situate issues of humanity, identity, and culture in relation to free will, surveillance, capitalism, neoliberalism, consumerism, solipsism, and creativity, offering a critique of the myriad constraints enacted by algorithms. This book argues that consumers are undergoing an ontological overhaul due to the enhanced manipulability and increasingly mandatory nature of algorithms in the market, while also positing that algorithms may help navigate through chaos that is intrinsically present in the market democracy. Ultimately, *Algorithmic Culture* calls attention to the present-day cultural landscape as a whole as it has been reconfigured and re-presented by algorithms. **Advancing the Science of Environmental Justice in the International Wildlife Trade** Jamie K.
