Managing Emerging Risk Kevin D. Burton, 2017-11-15 From Main Street to Mumbai Managing Emerging Risk The Capstone of Preparedness considers the new global drivers behind threats and hazards facing all those tasked with protecting the public and private sector The text delves into the global mindset of public and private sector emergency managers and presents a new risk landscape vastly different from the one existing ten years ago The book begins by presenting a series of fictitious scenarios each resulting in mass destruction and fatalities These are each followed by actual news stories that support the scenarios and demonstrate that the proposed events seemingly unthinkable have the potential to occur Next the author identifies two drivers in the practice of emergency management and general preparedness today
