The Sensible Guide to Forex Cliff Wachtel, 2012-09-04

FXstreet Com's 2013 Best Book Award The Sensible Guide to Forex Safer Smarter Ways to Survive and Prosper from the Start is written for the risk averse mainstream retail investor or trader seeking a more effective way to tap forex markets to improve returns and hedge currency risk As the most widely held currencies are being devalued they're taking your portfolio down with them unless you're prepared For traders the book focuses on reducing the high risk complexity and time demands normally associated with forex trading For long term investors it concentrates on how to hedge currency risk by diversifying portfolios into the strongest currencies for lower risk and higher capital gains and income The usual forex materials don't provide practical answers for most retail traders or longer term investors Virtually all forex trading materials focus on time

consuming high leverage high risk methods at which most traders fail Materials about long term investing in foreign assets rarely take into account the prospects of the related currency A falling currency can turn an otherwise good investment into a bad one Throughout the book the emphasis is on planning and executing only low risk high potential yield trades or investments and avoiding serious losses at all costs Packed with richly illustrated examples every step of the way and including additional appendices and references to online resources the book is the ultimate guide to forex for retail traders and investors seeking to tap forex markets for better currency diversification and income Provides traders with safer smarter less complex and time consuming ways to trade forex with higher odds of success These include the use of such increasingly popular new instruments like forex binary options and social trading accounts that mimic expert traders Shows investors how to identify the currencies most likely to hold or increase their value and provides a wealth of ideas about how to apply that knowledge to a long term low maintenance portfolio for both income and capital appreciation Helps anyone seeking an asset class with low correlation to other markets by explaining how the very nature of forex markets means that regardless of market conditions there s always a playable trend somewhere regardless of what other asset markets are doing and how to find and exploit it for a short term trade or a long term investment in a currency pair stock bond or other asset The Sensible Guide to Forex is only book that teaches mainstream risk averse investors and traders how to build a portfolio that s diversified by currency exposure as well as by asset class and sector via a variety of safer simpler methods to suit different needs risk tolerances and levels of expertise Written by Cliff Wachtel a 30 year financial market writer advisor and analyst The Sensible Guide to Forex offers practical solutions to the above dilemmas faced by every serious prudent investor A must own for any informed investor but don t take out word for it see advanced reviews at <http://thesensibleguidetoforex.com> review The New York Times Index ,1988 *Big Book of Virtual Teambuilding Games: Quick, Effective Activities to Build Communication, Trust and Collaboration from Anywhere!* Mary Scannell,Michael Abrams,Mike Mulvihill,2011-12-16 Get remote team members to interact as if they re in the same room Whether you re videoconferencing with team members across the world or e mailing a colleague sitting ten feet away the truth is evident technology has permanently altered the way we communicate The virtual workplace can facilitate quicker decision making and reduced overhead But the lack of face to face interaction can also impede trust innovation and creativity among team members The Big Book of Virtual Team Building Games is packed with games and activities for developing productive virtual teams across all digital platforms including e mail mobile devices web based conferencing tools and social media sites such as Facebook Twitter and Skype The Big Book of Virtual Team Building Games helps you Build a greater sense of community and reduce conflict Increase levels of engagement Get the most out of more introverted team members Boost team members productivity Make sure that the only thing separating your people is distance The Big Book of Virtual Team Building Games is just the tool you need to develop trusting relationships foster clear communication and use technology to enhance the team s connections 20 Day Virtual
