Navigating Social Journalism Martin Hirst, 2018-10-17 Public trust in the once powerful institutions of the News Establishment is declining. Sharing, curating and producing news via social media channels may offer an alternative if the difficult process of verification can be mastered by social journalists operating outside of the newsroom. *Navigating Social Journalism* examines the importance of digital media literacy and how we should all be students of the media. Author Martin Hirst emphasizes the responsibility that individuals should take when consuming the massive amounts of media we encounter on a daily basis. This includes information we gather from online media, streaming podcasts, social media and other formats. The tools found here will help students critically evaluate any incoming media and in turn produce their own media with their own message. This book aims both to help readers understand the current state of news media through theory and provide practical techniques and skills to partake in constructive social journalism.
