Digital Culture in the Platform Era Shane Tilton, 2025-09-26 This book uses the roles of celebrities in society to frame discussions about digital culture in the platform era and helps us see how we have evolved online in our communication and cultural creations. Focusing on the modern types of Internet celebrities, influencers, opinion leaders, nanocelebrities, and platform superstars, allows us to discuss their online practices and how their work has significantly changed the ways we define our communities within increasingly fragmented digital audiences and platform users. Through an exploration of the impact of social media and online communication, the book highlights how we are impacted by those who dominate these platforms. It identifies three essential components of digital celebrity culture: personality, reach, and content, while also providing an in-depth analysis of the psychological profiles of four types of celebrities and their connection to audiences. Internet celebrities can show us how to make our relationships more meaningful online by focusing on those communication practices that we learned in public speaking with a focus on informing, persuading, and inspiring. This understanding of purposeful content empowers the average Internet user to build authentic connections in an interconnected digital landscape. Celebrities are finally models of good practices when it comes to how they reach their audience. Their direct messaging tends to mimic the personal conversations that they have with friends; group chats are likely part of the celebrity's inner circle. Public postings on social media become their announcements to the general public, and streaming replicates the standards of traditional media broadcasts. Examining these dynamics of personalities, content, and reach gives us valuable insights into how we can effectively navigate digital interactions and ensure that we can craft online works that resonate with the people that we care about. This book gives us the model to use practical communication techniques to be more meaningful online.

**A Filtered Life** Nicole Taylor, Mimi Nichter, 2021-12-23 A Filtered Life is the first comprehensive ethnographic account to explore how college students create and manage multiple identities on social media. Drawing on interviews and digital ethnographic data gleaned from popular social media platforms, the authors document and make visible routinized practices that are typically hidden and operating behind the scenes. They introduce the concept of digital multiples, wherein students strategically present themselves differently across social media platforms. This requires both the copious production of content and the calculated development of an instantly recognizable aesthetic or brand. Taylor and Nichter examine key contradictions that emerged from student narratives, including presenting a self that is both authentic and highly edited.

appearing upbeat even during emotionally difficult times and exuding body positivity even when frustrated with how you look. Students struggled with this series of impossibilities yet they felt compelled to maintain a vibrant online presence. With its close up portrayal of the social and embodied experiences of college students, *A Filtered Life* is ideal for students and scholars interested in youth studies, digital ethnography, communication, and new forms of media.

**Sell Yourself: How to Create, Live, and Sell a Powerful Personal Brand** Cindy McGovern, 2022-09-27. Learn how to create live and sell your own personal brand even if you hate sales with step by step help from the First Lady of Sales. No matter what your role or title is, at work selling is an important part of what you do, whether you're selling a product, an idea, or a new way of doing things. But before you can sell any of those things, you have to sell yourself. Creating your own personal brand and promoting it in all you do is essential to achieving your professional goals and getting ahead in life. In *Sell Yourself*, renowned sales and leadership expert and Wall Street Journal best selling author Dr. Cindy McGovern guides you through the process of intentionally creating, living, and selling your own personal brand. Even those who don't view themselves as being in sales will quickly agree that everyone has a personal brand, whether they know it or not. Throughout this book, Dr. Cindy reveals the secrets to selling yourself, your vision, and ideas in a way that's thoughtful, active, and deliberate. You'll learn about how to apply the most effective selling strategies to your personal brand and how these strategies can help you create and live a personal brand that will be easy to sell. Full of time tested strategies and real world anecdotes to help you visualize how to put these powerful ideas into practice, *Sell Yourself* goes far beyond showing you why it's so important to create your personal brand. It helps you embrace the notion that everyone sells, and anyone can sell better, especially when the idea you're selling is you. And once you believe in you, the rest of the world will too.

**Advanced Pain Management in Interventional Radiology** John Prologo, Charles Ray, 2024-01-10. A practical case based guide on how to perform minimally invasive, image guided procedures for pain management. Minimally invasive techniques with fewer complications are continually being developed to provide relief to patients with debilitating, unrelenting pain. Although significant advancements have been made, and development continues at a rapid pace, it is essential that progress continues and clinicians unfamiliar with these techniques learn and incorporate them into practice. *Advanced Interventional Pain Management: A Case Based Approach*, edited by renowned interventional radiologists J. David Prologo and Charles E. Ray Jr., is the first textbook to use case examples to detail the latest image guided interventional approaches to treat conditions, diseases, and syndromes associated with unremitting, incapacitating pain. Fifty chapters by top experts in the field provide reviews of clinical conditions and technical guidance on how to perform procedures for a wide range of challenging pain conditions. The book starts with an insightful chapter on opioids, with discussion of history, the devastating opioid crisis, an overview of interventional pain procedures, and the important role interventional radiologists play in decreasing opioid use in select populations. Subsequently, each of the case based chapters is consistently formatted with the case presentation, clinical
