Story Machines: How Computers Have Become Creative Writers Mike Sharples, Rafael Pérez y Pérez, 2022-07-05 This fascinating book explores machines as authors of fiction past present and future For centuries writers have dreamed of mechanical storytellers We can now build these devices What will be the impact on society of AI programs that generate original stories to entertain and persuade What can we learn about human creativity from probing how they

work In Story Machines two pioneers of creative artificial intelligence explore the design and impact of AI story generators The book covers three themes language generators that compose coherent text storyworlds with believable characters and AI models of human storytellers Providing examples of story machines through the ages it covers the history recent developments and future implications of automated story generation Anyone with an interest in story writing will gain a new perspective on what it means to be a creative writer what parts of creativity can be mechanized and what is essentially human Story Machines is for those who have ever wondered what makes a good story why stories are important to us and what the future holds for storytelling **This Is for Everyone** Tim Berners-Lee, 2025-09-09 The inventor of the World Wide Web explores his vision s promise and how it can be redeemed for the future Perhaps the most influential inventor of the modern world Sir Tim Berners Lee is a different kind of technologist Born in the same year as Bill Gates and Steve Jobs he famously distributed his invention the World Wide Web for no commercial reward Its widespread adoption changed everything transforming humanity into the first digital species Through the web we live work dream quarrel and connect In this intimate memoir Berners Lee tells the story of his iconic invention exploring how it launched a new era of creativity and collaboration while unleashing powerful forces that imperil truth and privacy and polarize public debate With his trademark humor and candor he recounts how he arrived at CERN the European Laboratory for Particle Physics as a young engineer and soon came up with the astonishing idea of adding hyperlinks to the then nascent Internet His goal was to unleash a wave of creativity and collaboration for the benefit of all a goal he s pursued to this day Peppered with rich anecdotes and amusing reflections This Is for Everyone is a gripping in the room account of the rise of the digital world As the rapid development of artificial intelligence brings new risks and possibilities Berners Lee also offers a crucial guide to the decisions ahead and shows how our digital lives can be reengineered for the sake of human flourishing rather than profit or for power The Secret Life of Data Aram Sinnreich, Jesse Gilbert, 2024-04-30 How data surveillance digital forensics and generative AI pose new long term threats and opportunities and how we can use them to make better decisions in the face of technological uncertainty In The Secret Life of Data Aram Sinnreich and Jesse Gilbert explore the many unpredictable and often surprising ways in which data surveillance AI and the constant presence of algorithms impact our culture and society in the age of global networks The authors build on this basic premise no matter what form data takes and what purpose we think it s being used for data will always have a secret life How this data will be used by other people in other times and places has profound implications for every aspect of our lives from our intimate relationships to our professional lives to our political systems With the secret uses of data in mind Sinnreich and Gilbert interview dozens of experts to explore a broad range of scenarios and contexts from the playful to the profound to the problematic Unlike most books about data and society that focus on the short term effects of our immense data usage The Secret Life of Data focuses primarily on the long term consequences of humanity s recent rush toward digitizing storing and analyzing every piece of data about ourselves and the world we live in

The authors advocate for slow fixes regarding our relationship to data such as creating new laws and regulations ethics and aesthetics and models of production for our data fied society Cutting through the hype and hopelessness that so often inform discussions of data and society The Secret Life of Data clearly and straightforwardly demonstrates how readers can play an active part in shaping how digital technology influences their lives and the world at large *Mining and Scientific Press*,1919 **Ai Weiwei, Spatial Matters** Weiwei Ai,Anthony Pins,2014 This book draws on the full breadth of Ai Weiwei s architectural installation and activist work including drawings and plans from huge range of international projects with particular emphasis on his use of space Throughout the book a wide selection of essays by leading critics and art historians as well as interviews with the artist draw out his central concerns Jacket **Privacy, Technology, and the Criminal Process** Andrew Roberts,Joe Purshouse,Jason Bosland,2023-07-28 This collection considers the implications for privacy of the utilisation of new technologies in the criminal process In most modern liberal democratic states privacy is considered a basic right Many national constitutions and almost all international human rights instruments include some guarantee of privacy Yet privacy interests appear to have had relatively little influence on criminal justice policy making The threat that technology poses to these interests demands critical re evaluation of current law policy and practice This is provided by the contributions to this volume They offer legal criminological philosophical and comparative perspectives The book will be of interest to legal and criminological scholars and postgraduate students Its interdisciplinary methodology and focus on the intersection between law and technology make it also relevant for philosophers and those interested in science and technology studies **Country Guide and Nor'west Farmer** ,1911 **The Advertiser's ABC of Official Scales & Charges and Advertisement Press Directory** ,1900 *Wallace's Farm and Dairy* ,1908 *World Press Freedom Review* ,2007 **The Manchester Guardian Weekly** ,1953 **American Agriculturist** ,1932 **Microtimes** ,1993-04 **New York Times Saturday Review of Books and Art** ,1969 **Book Review Digest** ,1967 Excerpts from and citations to reviews of more than 8 000 books each year drawn from coverage of 109 publications Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language Reviews of the following types of books are excluded government publications textbooks and technical books in the sciences and law Reviews of books on science for the general reader however are included The reviews originate in a group of selected periodicals in the humanities social sciences and general science published in the United States Canada and Great Britain Publisher **PC Magazine** ,2008
