protracted wars and policies that have raised questions about the United States's role abroad and at home. Young people have not been shielded from the attacks or from the wars and policy debates that followed. Instead, they have been active participants as potential military recruits and organizers for social justice amid anti-immigration policies as students in schools learning about the attacks or readers of young adult literature about wars. *The War of My Generation* is the first essay collection to focus specifically on how the terrorist attacks and their aftermath have shaped these new generations of Americans. Drawing from a variety of disciplines including anthropology, sociology, cultural studies, and literary studies, the essays cover a wide range of topics from graphic war images in the classroom to computer games designed to promote military recruitment to emails from parents in the combat zone. The collection considers what cultural factors and products have shaped young people's experience of the 9/11 attacks, the wars that have followed, and their experiences as emerging citizen subjects in that moment. Revealing how young people understand the War on Terror and how adults understand the way young people think, *The War of My Generation* offers groundbreaking research on catastrophic events still fresh in our minds.
