Practical Hybrid Work Schedule Guide For Teens:

Youth Work Graham Bright, Carole Pugh, 2019-01-04 There is an ongoing debate in youth and community work regarding its future. Driven by processes of neo-liberal governmentality, youth work has been bent in new and uncomfortable directions. For many, this threatens the very telos of praxis. However, despite this, a passionate commitment to youth work's values and approaches doggedly remains. This edited volume invites academics working in different continents and contexts to move beyond a critique of youth work's current state towards imagining different professional futures. Rooted in the profession's historic values and drawing on the distinct political and cultural environments that have shaped youth work practice in different global locations, the authors explore possible new routes and approaches for the profession. These discussions are located geographically in a devolved United Kingdom, Europe, United States, Australasia, and the Developing Majority world, as well as across different sectors and approaches: voluntary sector, faith sector, online, young women's work. The result is a rich picture of global practice. This provides both depth and perspective from which to gain new insights regarding possibilities for future practices which imagine fairer and more participative societies.

Waitoller, Kathleen King Thorius, 2022 Asset-based pedagogies such as culturally relevant sustaining teaching are frequently used to improve the educational experiences of students of color and to challenge the White curriculum that has historically informed school practices. Yet asset-based pedagogies have evaded important aspects of students' culture and identity, those related to disability. *Sustaining Disabled Youth* is the first book to accomplish this. It brings together a collection of work that situates disability as a key aspect of children and youth's cultural identity construction. It explores how disability intersects with other markers of difference to create unique cultural repertoires to be valued, sustained, and utilized for learning. Readers will hear from prominent and emerging scholars and activists in disability studies who engage with the following questions: Can disability be considered an identity and culture in the same ways that race and ethnicity are? How can disability be incorporated to develop and sustain asset-based pedagogies that attend to intersecting forms of marginalization? How can disability serve in inquiries on the use of asset-based pedagogies? Do all disability identities and embodiments merit sustaining? How can disability justice be incorporated into other efforts toward
